Mawarra 2018 Top Seller - \$26,000 Prime Time

L-R: Barry Newcomen & Matt Marshall, Newcomen Herefords with Brandon Sykes.

2018 Mawarra Sales Review

81 bulls sold at auction to \$26,000 av. \$8,305

Sales include the Mawarra 45th Annual Sale and the 53rd Herefords Australia National Show & Sale (Wodonga)

Lot 2 Full Throttle - \$20,000
McKoy & Son, Holbrook, NSW.

Lot 3 Five Star - \$20,000 D & J Ingram, Bonang, VIC.

Volume Buyers for 2018

L & S Wheeler, Wallacedale, VIC.

5 bulls to averaged \$8,000

P & R Sandy, Swifts Creek, VIC.

1 bull \$8,000 & 3 heifers averaged \$3,000

E & G Sellers, Bendoc, VIC.

4 heifers averaged \$3,875

Reid Trust, Howlong, NSW.

3 bulls averaged \$10,670

A Trethowan, Woomargama, NSW.

3 bulls averaged \$12,000

Kobyboyn Pastoral Co., Seymour, VIC.

3 bulls averaged \$4,670

Jambro Pastoral Co., Bairnsdale, VIC.

3 bulls averaged \$5,670

R & V Dowel, Leongatha South, VIC.

3 bulls averaged \$6,000

Tablelands Pastoral, Sale, VIC.

3 bulls averaged \$5,330

Mawarra 45th Annual Sale, 26 March, 2018

72 Bulls sold to \$20,000 (twice) av. \$7,520

Herefords Australia National (Wodonga)

9 Bulls sold to \$36,000 av. \$13,670

Most Successful Exhibitor

Client Focus 2018

"It seems that Mawarra Herefords are well and truly on the right track. Their cattle are remaining true to type and present well and hold their own when penned up at any of the major selling centres across the southern states. It seems also that they have a strong focus on IMF which will only continue to improve them as time goes by..."

Steve Chapman, Southern Livestock Manager, JBS Australia.

Above left: Auctioneer, Nick Gray, Elders Jerilderie, judged the Herefords Australia champion pen of steers, awarded to Russell and Marilyn Pendergast (pictured with Peter and Deanne), at Benambra. The autumn 2017 drop Mawarra and Sugarloaf Creek blood steers had been weaned for a month and sold for the equal top weaner price of \$1,200 to South Gippsland steer finisher, Graeme Osborne. David Hill, Elders Omeo, estimated the weight of the calves at 365kg to give an estimated liveweight price of 328c/kg.

Above right: Bruce Elliott, Elders Yea, selected a pen of 21 European Union accredited autumn drop calves from Peter Faithfull, Omeo, as the winner of the Herefords Australia best presented pen. "They were standouts for strength, depth and trueness to type," Mr Elliott said. In fact, he liked them so much he bought the 10-11 month old calves for \$1,290. Mr Faithfull also topped the heifer yarding with a pen of 19 selling at \$1,080.

Photo above right courtesy Kim Woods, Outcross Media

Above left: 2018 Herefords Australia National Show & Sale (Wodonga). Ross Smith, Glenellerslie Herefords, Adelong, paid \$30,000 for WRL Makka (H), a 990kg son of Mawarra Black Heart (H), from WRL Herefords, Dalby, Qld. Above right: Ravensdale Guardian M222 (P), the top-priced bull at the 2018 Herefords Australia National Show and Sale (Dubbo), was purchased by Talbalba and Callaway Herefords. Guardian is one of the resulting calves from a 'Pick of the Herd Flush' purchased by Brian Burgess, Ravensdale, from Mawarra at auction during Beef 2015, Rockhampton. The dam of choice was Mawarra Tabitha 005 (P) and the sire, Allendale Anzac E114 (P).

Photos supplied.

Far left: Second top price at the 2018 Glen Innes sale (\$16,000) was paid by Battalion Herefords for Lot 11, Cara Park Unique M647 (H). He is a son of renowned carcass sire, Mawarra Unique C041 (A) (H).

Left: Rob and Heather Francis offered Yallaroo Miracle (P), sired by Mawarra Mustang (P), at the Farm Weekly WA Supreme Bull Sale in Brunswick. He was purchased by Forrest View Grazing, Dinninup, for the record top price of \$20,500.

Photos supplied.

Sydney Royal Hereford Feature Show 2018.

Above left: Male Calf Champion, Graham Asterix N003 (H), sired by Mawarra Daybreak (H). Graham Herefords purchased the dam, Mawarra Virginia 162 (H), at our 2016 Ladies Day Sale with Asterix in utero.

Above centre: Kanimbla Tia Maria M005 (P), sired by Mawarra Manitoba (P), was awarded Female Calf Champion and sold for the top price of the sale (\$12,000) to Hunter Lakes Herefords.

Above right: Reserve Intermediate Champion Female and first in the Youth Bred and Owned class, Kelder Park Mustang Sally (P), sire Mawarra Mustang (P). The dam, Mawarra Miss Titania 498 (H), was won by Nikki Martin at the 2014 Herefords Australia National Youth Show when she was awarded Most Potential Breeder.

Mawarra Herefords 46th Annual Sale

Monday, March 25, 2019 at 1 p.m.

82 Whiteface bulls

9 Registered females

Sale will be interfaced with AuctionsPlus!

Directions:

'Tanjil' is approximately 12 minutes' drive from Sale. If travelling from Bairnsdale direction, take the South Gippsland Highway to Yarram at Sale and turn right at Longford towards Rosedale on the Longford-Rosedale Road. Kelly's Road is approximately 8kms on the right and leads directly into our property. From Melbourne, via Princes Highway, turn right at the roundabout in Rosedale and take the first left towards Longford. Kelly's Rd is approximately 19kms on the left.

Accommodation:

Accommodation and transport can be arranged by contacting selling agents or vendors.
Local accommodation is featured on page 4.

Inspection:

All cattle can be inspected, by appointment, prior to the sale at 'Tanjil', Longford, and also from 9 a.m. sale day.

Delivery:

Delivery will be given at 'Tanjil' following the completion of the sale. Joe Wilton will be in attendance to co-ordinate deliveries. Stock awaiting delivery will be held free of charge for a period not exceeding one week or, in the case of interstate destinations, until regulation tests have been completed. Every care will be taken, but no responsibility accepted. Sale will be cancelled on any animal failing health tests.

Herd Health:

All bulls have veterinary certificates for breeding soundness and have been treated with Vetmec and Ultravac 7in1. Pestiguard has been administered according to Zeotis guidelines. Mawarra is ranked J-BAS score 7.

Airstrip:

Available at Sale airport. Planes will be met on request by agents or vendors.

No Verbal Instructions:

Please fill out the Buyers Instruction Form available online at our website prior to the sale, or from the Office on Sale Day. Only agents introducing 24 hrs prior to the sale or attending on the day will receive a Rebate.

Refreshments:

Light luncheon, morning and afternoon tea will be available at 'Tanjil' from 9.30 a.m. on Sale Day thanks to the Longford Primary School Parents' Club.

3% Agents Rebate

Payable **ONLY** to those agents who accompany their clients on Sale Day and co-sign the Buyers Instruction Form. **1% Rebate** is available to those agents who introduce their clients in writing by fax or email **at least 24hrs prior** to the sale.

Hereford Group Breedplan ... understanding the figures

All Sale bulls were scanned by Liam Cardile, Beef Xcel on December 11th, 2018

Calving Ease EBVs (%) are based on calving difficulty scores, birth weights and gestation length information. More positive EBV's are more favourable and indicate easier calving.

Gestation Length EBV (days) is an estimate of the time from conception to the birth of the calf and is based on AI and hand mating records. Lower (negative) GL EBVs indicate shorter gestation length and therefore easier calving and increased growth after birth.

Birth Weight EBV (kg) is based on the measured birth weight of progeny, adjusted for dam age. The lower the value the lighter the calf at birth and the lower the likelihood of a difficult birth. This is particularly important when selecting sires for use over heifers.

200 Day Growth EBV (kg) is calculated from the weight of progeny taken between 80 and 300 days of age. Values are adjusted to 200 days and for age of dam. This EBV is the best single estimate of an animal's genetic merit for growth to early ages.

400 Day Weight EBV (kg) is calculated from the weight of progeny taken between 301 and 500 days of age, adjusted to 400 days and for age of dam. This EBV is the best single estimate of an animal's genetic merit for yearling weight.

600 Day Weight EBV (kg) is calculated from the weight of progeny taken between 501 and 900 days of age, adjusted to 600 days and for age of dam. This EBV is the best single estimate of an animal's genetic merit for growth beyond yearling age.

Mature Cow Weight EBV (kg) is based on the cow weight when the calf is weighed for weaning, adjusted to 5 years of age. This EBV is an estimate of the genetic difference in cow weight at 5 years of age and is an indicator of growth at later ages and potential feed maintenance requirements of the females in the breeding herd. Steer breeders wishing to grow animals out to a larger weight may also use the mature Cow Weight EBV.

Milk EBV gives an estimation of the animals milking ability. For sires this EBV indicates the effect of their daughter's milking ability, inherited from the sire, on the 200 day weight of her calves. For dams, it indicates her milking ability.

Scrotal Size EBV (cm) is calculated from the circumference of the scrotum taken between 300 and 700 days of age and adjusted to 400 days of age. This EBV is an estimate of an animal's genetic merit for scrotal size. There is also a small negative correlation with age of puberty in female progeny and therefore selection for increased scrotal size will result in reduced age at calving of female progeny.

Days to Calving EBV (days) indicates the fertility of the daughters of the sire. It is the time interval between the day when the female is first exposed to a bull in a paddock mating to the day when she subsequently calves. A negative EBV for days to calving indicates a shorter interval from bull-in date to calving and therefore higher fertility.

Carcase Weight EBV (kg) is based on abattoir carcass records and is an indicator of the genetic differences in carcass weight at the standard age of 650 days.

Eye Muscle Area EBV (sq cm) is calculated from measurements from live animal ultrasound scans and from abattoir carcass data, adjusted to a standard 300kg carcass. This EBV estimates genetic differences in eye muscle area at the 12/13th rib site of a 300kg dressed carcass. More positive EBVs indicate better muscling on animals. Sires with relatively higher EMA EBVs are expected to produce better-muscled and higher percentage yielding progeny at the same carcass weight than will sires with lower EMA EBVs.

Rib Fat and Rump Fat EBVs (mm) are calculated from measurements of subcutaneous fat depth at the 12/13th-rib site and the P8 rump site (from live animal ultrasound scans and from abattoir carcasses) and are adjusted to a standard 300 kg carcass. These EBVs are indicators of the genetic differences in fat distribution on a standard 300 kg carcass. Sires with low, or negative, fat EBVs are expected to produce leaner progeny at any particular carcass weight than will sires with higher EBVs.

Retail Beef Yield EBV (%) indicates genetic differences between animals for retail yield percentage in a standard 300 kg carcass. Sires with larger EBVs are expected to produce progeny with higher yielding carcasses.

Intramuscular Fat EBV (%) is an estimate of the genetic difference in the percentage of intramuscular fat at the 12/13th rib site in a 300kg carcass. Depending on market targets, larger more positive values are generally more favourable.

SELECTION INDEX VALUES										SUPERMARKET +\$81		GRASS FED +\$77		GRAIN FED +\$88		EU +\$91

EXPLANATORY NOTES FOR SELECTION INDEXES

Hereford selection indices are calculated for four market specifications, namely, Supermarket, Grass Fed Steer, Grain Fed Steer and EU. These indices relate to typical self-replacing Hereford or Poll Hereford herds in temperate Australia targeting these specifications.

Index values are reported as EBVs, in units of relative earning capacity (\$'s) for a given market. They reflect both the short-term profit generated by a sire through the sale of his progeny, and the longer-term profit generated by his daughters in a self-replacing cow herd.

Supermarket Index (\$) Estimates the genetic differences between animals in net profitability per cow joined for an example commercial herd targeting the domestic supermarket trade. Steers are either finished on grass or grain (eg 50-70 days) Steers are assumed marketed at 450kg live weight (250kg HSCW and 12mm P8 fat depth) at 17 months of age. Daughters are retained for breeding. In response to industry feedback regarding eating quality and tenderness, a small premium has been placed on marbling.

Grass Fed Steer Index (\$) Estimates the genetic differences between animals in net profitability per cow joined for an example commercial herd targeting pasture finished steers. Steers are assumed marketed at 600kg live weight (330 kg HSCW and 8mm P8 fat depth) at 23 months of age. Daughters are retained for breeding. In response to industry feedback regarding eating quality and tenderness, a small premium has been placed on marbling.

Grain Fed Steer (\$) Estimates the genetic differences between animals in net profitability per cow joined for an example commercial herd targeting pasture grown steers with a 125 day feedlot finishing period for the grain fed markets. Steers are assumed marketed at 600kg live weight (330kg HSCW and 20mm P8 fat) at 20 months of age. Daughters are retained for breeding. There is a significant premium if steers reach a marble score of 2 or greater.

EU Index (\$) Estimates the genetic differences between animals in net profitability per cow joined for an example commercial herd targeting pasture finished steers for the EU market. Steers are assumed marketed at 620 kg live weight (340 kg HSCW and 14 mm P8 fat depth) at 24 months of age. Daughters are retained for breeding. There is no marbling requirement.

Non Breedplan Figures

Pigment: Each bull is assessed for left/right eye pigment and this is stated in the catalogue.

Scrotum: Scrotal circumferences of all bulls were measured by Dr Garth Jackson 05/02/2018

Soundness: All bulls were assessed for structural soundness by Liam Cardile 11/12/2018, prior to selection for sale.

Dr G Jackson inspected the bulls 07/02/2018 for structural & breeding soundness, certificates will be available sale day.

This symbol indicates the bull has been dehorned.

Understanding SNP based Poll tests

Previously used Beef CRC based Poll tests would return a result and an accuracy (e.g. Homozygous Polled 98%).

With SNP based Poll testing, the Poll gene can now be identified with a lot more accuracy and a description of the poll allele found is included as a subscript.

When reporting Poll test results from a SNP based test, the results will be reported as seen below:

SNP Test Result	Beef CRC Test Result	Detail
P_cP_c or P_cP_f or P_fP_f	PP	Homozygous Polled – A ‘True Polled’ animal and will only produce Polled (or Scurred) calves, they will not produce Horned calves.
P_cH or P_fH	PH	Heterozygous Polled – Animal is Polled or Scurred and carries a Polled and Horned gene and can produce Polled, Horned (or Scurred) calves.
HH	HH	Homozygous Horned – The animal is Horned and can produce Horned, Polled (or Scurred) calves.

Please note that the SNP based test is used when requesting a stand-alone Poll test and an ‘add-on’ to a GGP genotype.

Pedigree Abbreviations:

In accordance with Herefords Australia regulations, the following abbreviations appear in the pedigree of animals denoting their horn status.

(H)	=	Horned
(P)	=	Polled
(S)	=	Scurred (Note: The scurred gene is independent to the polled gene. It gives no indication of the level of horned or polled progeny that will result from this sire.)
(H#)	=	is a horned animal either containing Polled genetics OR is missing a percentage of its four generation horned pedigree

Conditions of Sale

- 1 The highest bidder shall be the purchaser and, in the event of any dispute arising, it shall be settled by the Auctioneer unless one of the claimants will advance, in which case the lots shall be put up again.
- 2 The purchaser shall deposit 25% or the whole of the amount of the purchase money (if required) at any time during the sale.
- 3 All stock shall be paid in cash immediately on conclusion of the sale, and prior to delivery, but, unless other arrangements are specifically agreed in the event of delivery being made or possession obtained by the purchaser or his representative prior to payment of the purchase money, then until payment in full of the purchase money, or any cheques given on account of same of the purchaser to hold the stock as trustee only for the vendor.
- 4 Each lot shall be at the risk and expense of the purchaser immediately upon the fall of the hammer.
- 5 Lots will not necessarily be offered in numerical order.
- 6 All conditions and warranties which might but for this clause be implied by law are expressly negated and excluded. Lots are sold with all faults (if any) and no fault, error, omission, or misdescription in such particulars or pedigrees shall invalidate the sale or be made the subject of any claim for compensation.
- 7 The auctioneers or vendors shall not be responsible for any errors or omissions in any particulars appearing in the description of pedigree of any lot offered for sale, and no error, omission or misdescription in such particulars or pedigrees shall invalidate the sale or be made the subject of any claim for compensation.
- 8 The purchaser authorises the auctioneer and/or the auctioneers clerk, to sign on his or her behalf the contract of sale.
- 9 Any statement in the catalogue in relation to a particular cow that has been pregnancy tested as being in calf or to the like effect shall not imply any warranty by the vendor that the cow is in fact pregnant and the purchaser is required to take the risk of the pregnancy or tests being wrong.
- 10 If the purchaser shall neglect or fail to comply with any of the above conditions, any stock purchased by him may be immediately resold by public auction or private contract, with or without notice, at the risk of the former purchaser, who will be held responsible for all loss and expenses arising out of such re-sale, and shall not participate in any profit accruing therefrom.
- 11 GST: All payments to be made under this agreement are exclusive of GST as that term is used and defined in A New Tax System (Good and Services Tax) Act 1999 (as amended). The Purchaser acknowledges that, in addition to all payments payable by the Purchaser for all supplies made under this agreement, the Purchaser must pay all applicable GST on supplies made.

DISCLAIMER NOTICE

People entering upon this property for any purpose whatsoever, including attendance of cattle auctions, do so at their own risk. We are not liable to you for personal injury or death suffered by you and/or for the theft, loss of or damage to any personal property caused or contributed to by us or by any other person whether caused or contributed to by our or their negligence, deliberate act or unlawful conduct. “We”, “Us” or “Our” refer to the owners, their employees, contractors and agents and each of them. Every care has been taken in compiling this catalogue to ensure accuracy of information supplied, but no responsibility is accepted for any errors which may have occurred.

Congratulations to the McCormack family, Bulloch, for winning the Herefords Australia Champion Pen at the Wodonga Annual Weaner Sale, 11 January, 2019. This is the second time the family have been awarded the prestigious prize. David McCormack is pictured here securing a Mawarra Genetics sticker to the pen card displayed above his winning pen of 22 autumn drop, Mawarra blood, steers. The steers averaged 388kg, and sold for the top weaner price of \$1,150 or 296c/kg. Judge, JBS Australia livestock buyer, Peter Steer, said the McCormacks had paid close attention to genetics and health treatments. "The steers are well weaned enabling them to progress from the day you buy them", he said. Repeat buyers compete strongly for the McCormack calves and this competition has seen them rewarded with the top weaner price in three of the last five years at this annual premier weaner sale event. The McCormack family have purchased nine bulls from Mawarra since 2008, investing an average of \$6,800 per bull. They have also bought females over that time; adding to the depth and genetic diversity of their breeding herd. Excellent animal health and management practises, coupled with well-researched genetic selection, combine to produce a reliable, performance-driven product that not only increases the profitability of the McCormack family business, but also ensures their calves consistently grow out and perform, ensuring continuity throughout the supply chain.

Daybreak is one of the most complete sires we have bred; outcross genetics, sound structure, balance, softness, weight-for-age, carcase and IMF combine with elite maternal genetics. Note his impressive +4.4 for Rump, top 1% Rib & IMF, 5% EMA and 15% 400, 600 & GN. We have recorded the birth weight of 50 Daybreak calves, and they have averaged 40kgs. Doreen 225 has sold eight sons to \$20,000, recording an average of \$12,375, and her daughters have sold to \$5,000. Two ET daughters were in the winning 'Pen of Three' at the 2016 World Hereford Conference, Uruguay. We have four daughters currently in herd, three being full sisters to Daybreak. Purchased by Ironbark Herefords for \$20,000 at the 2016 Herefords Australia National (Wodonga), they are very pleased with the contribution Daybreak is making to their program. We have over 30 Daybreak daughters retained in herd and we are confident his sons, industry-driven, performance-orientated young sires, will add profitability to your program. We highly recommend your inspection of Lots 2, 6, 9, 11, 12, 13, 14, 15, 32, 33, 39, 42, 44, 51, 52 & 58. Another 3 sons will be offered in our 2019 Herefords Australia National (Wodonga) team.

Born: 01/02/2011

GLENDAN PARK STORM W134 (H)
BOWMONT STORM C093 (H)
BOWMONT MARITANA W168 (H)

MAWARRA SENTIMENTAL (ET) (H)
MAWARRA MINERVA 774 (AI) (H)
MAWARRA MINERVA 458 (AI) (H)

Trait Leader

After Shock was a long, powerful sire with a lovely nature. His daughters, numbering in excess of 50 at Mawarra, display consistent excellence of udder shape and milking ability, combined with depth, volume and softness. The average birth weight of his 118 calves at Mawarra is 39kgs. His dam, Minerva 774, has a perfect udder and her sons have sold to \$36,000. Her progeny includes five daughters and retained sire, Class Act. An After Shock daughter was Junior Champion at the 2015 Herefords Australia National Youth Heifer Show, who then went on to be awarded Junior Champion at the Adelaide Royal Hereford Feature where she was also in the winning Interbreed Junior Pair. At the conclusion of our 2018 sales season, After Shock's daughters had sold to \$8,000 and his 13 sons had sold to \$15,000, at an average of \$7,800. After Shock semen has been exported to New Zealand and the EU semen rights have been purchased by The Haven and Dieuacresse Herefords, England. He is represented by eight sons in this catalogue; see Lots 5, 16, 31, 37, 38, 45, 53 & 54.

Trait Leader

Owned with Talbalba Herefords, Advance F052 is a square, easy-doing sire. Across both programs he is consistently breeding bulls tailored to our modern, commercial industry. He is a trait leader for 600 & in the top 1% for MCwt & IMF, 5% EMA, 10% GL and 15% Milk & Cwt. We have 23 Advance daughters retained who are all they are very good-milking, easy-doing females. At Mawarra, his 111 calves have recorded an average birth weight of 38.5kgs. His top-selling son from our stable, Evolution, was purchased by Graham Herefords, Cootamundra, for the equal top price of \$32,000 at the 2017 Herefords Australia National (Wodonga). At the conclusion of our 2018 selling season, 19 Advance sons had recorded an impressive average of \$10,920. We have four of his sons in our AI sire battery: Evolution, Exceptional, Evident and Fair Game. Another, Fair Dinkum, was used prior to his sale. For bulls tailored to meet the requirements of today's competitive red-meat industry, we highly recommend your inspection of Lots 46, 50, 55 & 56.

Trait Leader

Boasting moderate birth, incredible depth, capacity and easy-doing ability, Yarram Lottery H220, is an impressive sire, a trait leader for GL, and ranks in the top 1% of the breed for RBV & 5% for EMA. He is breeding a consistent line of progeny at the top end of the Yarram Park program and we are impressed with the moderate birth-weight (35kg average) and the consistency of the calves by this complete outcross sire. We are pleased to offer his first Mawarra sons to you in this catalogue (see Lots 49 & 57). Another son will represent him in our 2019 Herefords Australia National (Wodonga) team.

BOWMONT STORM C093 (H)
MAWARRA MINERVA 863 (AI) (H)
 MAWARRA MINERVA 397 (AI) (H)

Diamantina was purchased for \$9,000 at the 2016 Herefords Australia National (Wodonga) by Alan Mitchell, Wonthaggi. Alan's business was featured in a recent Client Focus video, which can be viewed on the 'Share Your News' page of our website. Diamantina is a moderate sire and has bred exceptionally well for us. His progeny show explosive growth to 400/600 days, eye appeal, do-ability and industry-leading IMF. His maternal line is proven, and we are excited to have 10 young daughters in herd. We have retained his son, Flying Start (see Future Sires), and his first calves show great potential. Diamantina boasts an excellent EBV spread; top 1% Rib & Rump, 5% EMA & IMF, 10% GS, 15% GN and 20% 400D, 600D, SM & EU. His 17 calves, at Mawarra, have recorded an average birth weight of 38kgs. His first three sons sold to \$14,000 (Foreman, 2018 Herefords Australia National [Wodonga]), and he is represented in this catalogue by Lot 36.

 GLENWARRAH LIONESS 35 (H)

YALLAROO TITAN X20 (H)
MAWARRA DOREEN 300 (H)
 MAWARRA DOREEN 162 (H)

Trait Leader

Black Heart was purchased by Talbalba & WRL Herefords, at the 2014 Herefords Australia National (Wodonga) for \$18,000. Talbalba regard Black Heart as, '...the best son we have seen by Glenwarrah Lismore More...'. A son from WRL sold for \$30,000 (page 3), at Talbalba his sons have sold to \$15,000 and at Mawarra, \$14,000. Black Heart is a very long, strong-topped, muscular bull with true-to-type Hereford cosmetics. He is a trait leader for 400, 600 & SS, and ranks in the top 5% of the breed for MCwt & EMA, 10% 200, 15% DC, Cwt, RBV & IMF. The 25 Black Heart calves born at Mawarra have recorded an average birth weight of 35kgs. We purchased a son from Talbalba in 2018 (see Talbalba Black Heart M040 in the Future Sires section on page 15). Black Heart is represented in this catalogue by a son, Lot 3, and a daughter, Lot 83.

 MAWARRA DOREEN 254 (AI) (H)

COOTHARABA MAGNUM (H)
MAWARRA DOREEN 348 (AI) (H)
 MAWARRA DOREEN 241 (AI) (ET) (H)

Moderate, thick, and easy-doing, Dominance is a young sire boasting a pedigree of proven, commercially-profitable and performance-driven genetics. He has a set of well-balanced EBVs to match (Top 10% GL, EMA, IMF, 20% Rib, Rump & GN) and his 14 Mawarra calves have recorded an average birth weight of 35kgs. Dominance was purchased by Morefield H S for \$14,000 at our 2016 Sale. We purchased semen in his sire, Victory, after inspecting a beautiful line of daughters at Peter Faithfull's property, Omeo. Victory's progeny have been included in the highly-sought-after pens of Faithfull calves at the annual Mountain Calf Sales. Dominance's first Mawarra sons sold to \$8,000 in 2018 and we offer you three daughters in this catalogue; Lots 85, 86 & 90.

Future Sires

Mawarra Emperor (A10 (ET) (H)) Sire: Churchill A1 ET (IMP USA) (H) Dam: Mawarra Minerva 816 (A1) (ET) (H)

Born: 16/09/2015

Emperor is by outcross sire, Churchill A1. Brandon inspected him whilst in the U.S. and was very impressed with both him and his progeny. A1 is by a proven low-birth-weight, calving-ease sire, Sensation. Widely used in the U.S., he offers the industry-relevant traits of carcass and maternal, a valuable combination. Emperor was accepted into the Herefords Australia Young Sire Program & the BIN Progeny Test - 7th Cohort. His dam, Minerva 816, is an outstanding female. She is a full sister to Vice Admiral and her six daughters are retained in herd. Her first son, a full brother to Emperor, sold for \$15,000 at the 2017 Herefords Australia National (Wodonga) to Greg O'Brien, Mansfield. Our first drop of Emperor calves show great promise. We look forward to offering them to you in 2020.

Yarram Unique F181 (H) Sire: Mawarra Unique C041 (A1) (H) Dam: Yarram Flossie A096 (H)

Born: 13/04/2010

We were fortunate to purchase proven sire, Yarram Unique F181, from Truro Herefords in 2017. His sire line is one we know well, and trust to continue breeding commercially-elite cattle that fit the demands of modern industry. These traits are highlighted by his excellent EBVs and (\$)Indexes; F181 is a trait leader for EMA & IMF. He was the highest -scanning bull for EMA in his drop at Yarram Park. Used extensively across Australia, and also internationally, we are delighted to have him residing with us now at Mawarra.

We are very excited to have secured semen in this outstanding sire with Kanimbla Poll Herefords. Currently one of the most desired bulls of the Hereford breed in the U. S., a half interest sold for USD\$74,000 (the highest-selling Lot) at the 2015 Iron Lake Ranch Sale, when Catapult was five years old. His daughters have sold to USD\$80,000 twice. Catapult is a trait leader in the US for nine traits; Weaning Wt, SCF, Milk, Milk & Growth, Fat, REA & all (\$) indexes. His Australian EBVs rank in the top 5% Milk, 10% Cwt, SM, GS & EU, 15% GL, GN, 20% CEDir, BW, SS, DC & EMA. His calves at Mawarra have recorded an average birth-weight of 36.5kgs. Brandon regards Catapult as one of the best bulls he has ever seen. He was impressed by his carcass and structural soundness, which was also evident in his progeny. His sons at Mawarra have sold to \$13,000, four more are offered to you as Lots 62, 63, 64 & 69 in this catalogue. His sons provide an exciting, performance-driven, outcross opportunity.

Mawarra Mustang (P) Born: 24/05/2013

KARINA CHERRY Z8 (P)
TYCOLAH JOVIAL F77 (P)
TYCOLAH COUNTESS W48 (P)

BOWEN VINCENT V1 (S)
DEBARRY TABITHA Y177 (P)
DEBARRY TABITHA T81 (P)

Trait Leader

Mustang is an impressive sire with hind-quarter, softness, a superb temperament and all the length and carriage his pedigree suggests. DB Tabitha Y177 is our most successful Poll female. Her 14 sons have recorded an average of \$8,720 and a daughter sold for \$10,000. Jovial F77, \$80,000 Grand Champion at the 2012 Herefords Australia National (Dubbo), has bred consistently at Mawarra. Mustang's progeny have proved our expectations were not misplaced. His semen was exported to New Zealand and the United Kingdom. He has been a prolific breeder of magnificent females with excellent udders, we have twenty-nine daughters in herd. His 67 calves, born at Mawarra, have an average birth-weight of 40kg. His sons have sold to \$8,000 and he is represented by three more in this catalogue, see Lots 71, 75 & 76.

Trait Leader

One of the hottest sires in 2018, Techno sons have sold to \$51,000 in New Zealand. His son, Prime Time, was our top-selling bull in 2018 at \$26,000. He was purchased by Newcomen Herefords, Ensay, at the Herefords Australia National Show & Sale (Wodonga). The only other son we offered last year sold for \$14,000. Techno is a trait leader for 200, 400, 600, SS & IMF, and his Cwt and all (\$\$) Index values rank in the top 1% of the breed (Mwt, Rib top 5%, DC, EMA & Rump top 10%). Over 50 calves at Mawarra have recorded an average birth weight of 37kgs. He has produced a very exciting line of young females for us (we currently have 33 retained in herd) who all stood out at scanning for their impressive IMF. We offer you a further opportunity to take advantage of this impressive bloodline with three sons offered in this catalogue (see Lots 65, 77 & 78) and another in our 2019 Herefords Australia National (Wodonga) team.

 DEBARRY TABITHA T81 (P)

We used One & Only L018 prior to his sale in 2017, when he was purchased for \$16,000 by the Triffett family, Ouse, Tasmania. His EBVs rank in the top 5% for SS, 10% RBV, 20% 400 & EMA. His 16 Mawarra calves have recorded an average birth weight of 37kgs. His sire, 2014 Herefords Australia National (Dubbo) Senior Champion, Little Rippa, was purchased for \$12,000 by Oak Downs Poll Herefords where he has made a very positive contribution to their herd. Tabitha Y177 is our most-successful Poll female, her 15 sons have sold to \$16,000 (three times).

Future Sires

Mawarra Private Eye M013 (AI) (PP) Sire: PCL Zircon 719T 25Z (IMP CAN) (P) Dam: M. Miss Titania 054 (AI) (ET) (P)

Born: 09/02/2016

Miss Titania 054 is from our highly-successful and well-proven Miss Titania line, and Zircon is internationally-renowned for his low birth weight and maternal breeding. It is hard to find bulls with an EBV spread including low birth and carcass; top 1% of the breed for RBY, 5% Cwt & EMA, 15% Milk & 20% BW & 600. Private Eye has a wonderful temperament and his first calves, showing great potential, will be offered in our 2020 Sale.

Mawarra Outstanding L140 (PP) Sire: Allendale Anzac E114 (PP) Dam: Debarry Tabitha Y177 (P)

Born: 04/04/2015

The breeding prowess of both Anzac E114 and Tabitha Y177 is well documented. These two elite Poll Herefords have combined pedigree, phenotype and performance resulting in this 'Outstanding' young sire. He was in the Herefords Australia Young Sire Program and his semen has been exported to New Zealand and the United Kingdom. Outstanding's EBVs rank in the top 10% of the breed for SS & IMF, 15% 200, 400, 600, Cwt and all (\$)Indexes, an indication of his potential to increase the profit margin of your enterprise.

NJW 79Z Z331 Endure 173D (IMP USA) (ET) (PP) Sire: KCF Bennett Encore Z311 (ET) (PP) Dam: BW 91H 100W Rita 79Z (P)

Born: 22/02/2016

Endure was imported by Kanimbla Poll Herefords and we appreciate the opportunity afforded to us to include him in our AI sire battery. He was the US\$150,000 top-price bull at the 2017 NJW Sale. He is low birth with good calving ease and carcass, and is well marked for the Australian market place with red eyes and deep colour. We are excited to see the contribution he makes at Mawarra, especially over our Techno daughters. Top 5% Milk, EMA & RBY, 10% CEDtrs, BW, Cwt, 15% 400, 20% CEDir & SS.

Glentrevor Wallace H427 (AI) (P) Sire: South Bukalong Wallace 2 (P) Dam: Glentrevor Maritana F240 (H)

Born: 08/08/2012

JOINING SIRE: Wallace H427 has been widely used throughout Australia. He is a trait leader for GL, BW, SS & IMF and he ranks in the top value for both CEDir & CEDtrs, 1% Rump, 5% Rib and all (\$)Indexes, 15% Cwt. He was an obvious choice for use over heifers and, as such is the natural joining sire for the nine females offered as Lots 83 - 92. The Wallace H427 calves at Mawarra have averaged 34kgs at birth, and his sons have sold to \$12,000.

MAWARRA MISS TITANIA 354 (AI) (ET) (H)
 MAWARRA MISS TITANIA 123 ET6 (AI) (ET) (H)

Great Northern is bestowed with the honour of being the first Daybreak son offered! Miss Titania 354 sold her first son for \$16,000 at the 2013 Herefords Australia National (Wodonga). She is a donor dam with four daughters in herd, two being full sisters to Great Northern. The contribution grand dam, Miss Titania 123, has made to our breed is well documented. Her sons include such renowned sires as Nostalgia and Sentimental. We are confident that Daybreak, and his progeny, have much to contribute to our industry. Great Northern's excellent phenotype combines with impressive genetics to offer an exciting prospect for your breeding program.

 MAWARRA MISS TITANIA 299 ET1 (AI) (ET) (H)

Miss Titania 409's first son was purchased by P & R Sandy, Swifts Creek, for \$10,000. Graham Herefords, Cootamundra, purchased a daughter for \$8,000. Jason Graham regards her as one of his lead females. We have an After Shock heifer retained, and her full brother will be offered in 2020. Grand dam, Miss Titania 299 is a full sister to Nostalgia. The Daybreak's have great weight-for-age which is being reflected in the increasing birth weight EBV. The Daybreak calves, at Mawarra, have recorded an average birth weight of 40kgs.

Tabitha 006 is a young donor that we hold in high regard. Pictured on page 6, you will see her elite phenotype. Rockford is the first of her sons to be offered, while another, a natural son, is catalogued as Lot 70. Rockford is a full brother to three of the eight Tabitha 006 daughters we have in herd. Another full brother is in our team for the 2019 Herefords Australia National (Wodonga). Grand dam, Tabitha Y177, has sold sons to \$16,000 and daughters to \$10,000.

The feedback below was received last year during the entry process for our 'Beef Up Your Budget' competition. Entries were received from five Australian States, and Mr. M. Goonan, Mudgegonga, Victoria, was the lucky recipient of the \$1,000 Mawarra Genetics credit. It was put to good use after he selected a new sire and a PTIC heifer at our 2018 Sale.

The feedback below was received last year during the entry process for our 'Beef Up Your Budget' competition. Entries were received from five Australian States, and Mr. M. Goonan, Mudgegonga, Victoria, was the lucky recipient of the \$1,000 Mawarra Genetics credit. It was put to good use after he selected a new sire and a PTIC heifer at our 2018 Sale.

I require length and depth of body, structural soundness, weight for age, high milking, sound feet and good temperament. Mawarra are breeding terrific young sires, they have a great reputation for quality.

I am after the desirable traits of hardiness, early maturity, quiet, small birth weight, good EBVs. I look for big briskets and good feet, basically the swift, efficient conversion of grass into red meat. I can find all these requirements at Mawarra.

Mawarra bulls fit our program. We require dark colour, good feet, EMA, milk and bulls I can put with heifers the first year.

Mawarra genetics have bred true-to-type cattle for many years; growth, FMA & IMF.

Our program requires sires with low birth weight calves, milk and 600D growth. Mawarra offer a range of bloodlines to choose from

We are continuously looking to improve our herds genetics and as industry leaders we have chosen Mawarra for that genetic gain.

Soundness, quality, temperament, smooth shoulders, depth of hind-quarter, milk and genetics. Mawarra have a reputation for performance reliability.

Animals with sound structure, width, depth and carcass. A long line of tremendous genetics, both male and female, have come from the Mawarra program.

Calving ease, milking ability, temperament and solid 300 day weight. Mawarra Genetics is a great family business with a keen eye on results.

Mawarra provide up-to-date genetics and have a good name throughout the industry.

We like the range of bloodlines available and we're supporting a great family business.

I think Mawarra have the best homed genetics available at present. I look for size, depth, length and spring of rib. They need to be a true Hereford color.

I require IMF, birth weight and milk. Mawarra are country leading genetics.

We strive for cattle with frame, softness, moderate birth weight, structure and milk. We have bought Mawarra bulls for many years, they breed well and their progeny sell well.

Mawarra bulls meet our requirements for moderate birth weight, IMF, 200 and 400 day weights, gestation length and carcase weight.

Mawarra offer correct structure, EMA, hind-quarter, colour and eye pigment. We have been happy with the genetics we have used from Mawarra, it is hard to find bulls that suit our criteria and also have above average EBVs.

We have purchased both cows and bulls from Mawarra and have been very satisfied. They have been small at birth for easy calving as well as high milk production and growth.

Our clients' successes are our greatest reward.

Share Your News

Our website now has a page dedicated to you!

SUBMIT

Your feedback is crucial to us, as we use it to tailor our genetic selection and breeding program to produce the seedstock required to meet the demands of modern industry. We encourage you to submit your feedback; performance, results, questions, issues...we want to hear it all! Together we can maximise the genetic gain and profitability of your program as we all 'do our bit' to provide a quality protein source for the end consumer. Our clients have a diverse range of end markets; we strive to present bulls and females that offer a range of genetic options and performance traits, enabling our clients to purchase from the same 'farm gate' whilst continuing to improve and diversify their own breeding programs. Our breeding herd has been developed over more than half a century and our dedication to the industry spans four generations of our family. Strong foundations and modern applications combine at Mawarra to produce performance-driven seedstock bred to improve your profitability.

PASSION PERFORMANCE PROFIT

Taylah was thrilled to be awarded The Most Potential Breeder at the 2018 Herefords Australia Youth Expo. Thanks to Jim & Bell, Kanimbla Poll Herefords, for your ongoing support and encouragement of #hereforyouth #youthinag #thisisourfuture
