49th Annual Sale
Monday 21 March 2022

www.mawarragenetics.com.au

L-R: \$103,000 Mawarra If Only P264 with Logan, \$53,000 Mawarra Terminator Q274 with Brandon, \$42,000 Mawarra Influential Q162 with Taylah, Brittany, Deanne holding Carter, and Peter Sykes.
Our team of seven bulls at the 2021 Herefords Australia National Show & Sale (Wodonga) averaged \$41,428.

2021 Sales Review

83 Whiteface bulls sold to \$103,000 (averaging \$13,465) and 23 Angus bulls sold to \$15,000 (averaging \$7,131). 13 Whiteface heifers sold to \$13,000 (averaging \$6,116).

Sales include the Mawarra 48th Annual Sale and the 57th Herefords Australia National Show & Sale (Wodonga).

Mawarra Hawkeye P378 (AI) (ET) (H)

\$22,000 - David Phelan, Yarram, Vic.

Mawarra Quarterback Q382

\$15,000 - K & K Skews, Ensay, Vic.

Volume Buyers for 2021

P & C Faithfull, Omeo, Vic.

4 bulls averaged \$6,500.

J Kitschke, Mt Gambier, SA.

3 bulls averaged \$11,670.

McKoy & Son, Holbrook, NSW.

3 bulls averaged \$7,000.

Stud Buyers in 2021

Mawarra Genetics 49th Annual Sale

Monday, 21st March, 2022 at 1 p.m.

100 Whiteface bulls, 42 Angus bulls, 23 PTIC Heifers & 15 Weaner Heifers

BJS Livestock video sale will be interfaced with AuctionsPlus

Directions:

Mawarra is approximately 12 minutes drive from Sale. Travelling from Bairnsdale, take the South Gippsland Hwy to Yarram, at Sale, and turn right at Longford towards Rosedale.

Airstrip:

Available at Sale airport. Planes will be met on request by agents or vendors.

Refreshments:

Light lunch, morning and afternoon tea will be available from 9:30 a.m. on Sale Day thanks to the Longford Primary School Parents' Club.

Accommodation:

Accommodation and transport can be arranged by contacting selling agents or vendors.

We recommend the following motels:

The Matador: 68-78 Raymond Street, Sale 3850. T: 03 5144 1422 E: info@thematador.com.au

Quest Apartments: 180-184 York Street, Sale 3850. T: 03 5142 0900 E: questsale@questapartments.com.au

Mantra Traralgon: 192 Franklin Street, Traralgon 3844. T: 03 4112 2200 E: hb518@accor.com.au

Inspection:

All cattle can be inspected, by appointment, prior to the sale, and also from 9 a.m. on Sale Day.

Herd Health:

All bulls have veterinary certificates for breeding soundness and have been treated with Vetmec and Ultravac 7in1. Pestiguard has been administered according to Zeotis guidelines. J-BAS score 6.

No Verbal Instructions:

Please fill out the Buyers Instruction Form available on our website prior to the Sale, or from the office on Sale Day. Only agents introducing 24 hours prior to the sale or attending on the day will receive a rebate.

Agents Rebate:

3% payable ONLY to those agents who accompany their clients on Sale Day and co-sign the Buyers Instruction Form. 1% rebate is available to those agents who introduce their clients in writing, by fax or email, at least 24 hours prior to the Sale.

Delivery:

Staff from Joe Wilton Transport will be in attendance to co-ordinate deliveries. Stock awaiting delivery will be held free of charge for a period not exceeding one week or, in the case of interstate destinations, until regulation tests have been completed. Every care will be taken, but no responsibility accepted. Sale will be cancelled on any animal failing health tests.

Conditions of Sale

- 1 The highest bidder shall be the purchaser and, in the event of any dispute arising, it shall be settled by the Auctioneer unless one of the claimants will advance, in which case the lots shall be put up again.
- 2 The purchaser shall deposit 25% or the whole of the amount of the purchase money (if required) at any time during the sale.
- 3 All stock shall be paid in cash immediately on conclusion of the sale, and prior to delivery, but, unless other arrangements are specifically agreed in the event of delivery being made or possession obtained by the purchaser or his representative prior to payment of the purchase money, then until payment in full of the purchase money, or any cheques given on account of same of the purchaser to hold the stock as trustee only for the vendor.
- 4 Each lot shall be at the risk and expense of the purchaser immediately upon the fall of the hammer.
- 5 Lots will not necessarily be offered in numerical order.
- 6 All conditions and warranties which might but for this clause be implied by law are expressly negated and excluded. Lots are sold with all faults (if any) and no fault, error, omission, or misdescription in such particulars or pedigrees shall invalidate the sale or be made the subject of any claim for compensation.
- 7 The auctioneers or vendors shall not be responsible for any errors or omissions in any particulars appearing in the description of pedigree of any lot offered for sale, and no error, omission or misdescription in such particulars or pedigrees shall invalidate the sale or be made the subject of any claim for compensation.
- 8 The purchaser authorises the auctioneer and/or the auctioneer's clerk to sign on his or her behalf the contract of sale.
- 9 Any statement in the catalogue in relation to a particular cow that has been pregnancy tested as being in calf or to the like effect shall not imply any warranty by the vendor that the cow is in fact pregnant and the purchaser is required to take the risk of the pregnancy or tests being wrong.
- 10 If the purchaser shall neglect or fail to comply with any of the above conditions, any stock purchased by him may be immediately resold by public auction or private contract, with or without notice, at the risk of the former purchaser, who will be held responsible for all loss and expenses arising out of such re-sale, and shall not participate in any profit accruing therefrom.
- 11 GST: All payments to be made under this agreement are exclusive of GST as that term is used and defined in A New Tax System (Good and Services Tax) Act 1999 (as amended). The purchaser acknowledges that, in addition to all payments payable by the purchaser for all supplies made under this agreement, the purchaser must pay all applicable GST on supplies made.

Description of Estimated Breeding Values (EBV)

Calving Ease EBV (%) are based on calving difficulty scores, birth weights and gestation length information. More positive EBV's are more favourable and indicate easier calving.

Gestation Length EBV (days) is an estimate of the time from conception to the birth of the calf and is based on AI and hand-mating records. Lower (negative) GL EBVs indicate shorter gestation length and therefore easier calving and increased growth after birth.

Birth Weight EBV (kg) is based on the measured birth weight of progeny, adjusted for dam age. The lower the value the lighter the calf at birth and the lower the likelihood of a difficult birth. This is particularly important when selecting sires for use over heifers.

200 Day Growth EBV (kg) is calculated from the weight of progeny taken between 80 and 300 days of age. Values are adjusted to 200 days and for age of dam. This EBV is the best single estimate of an animal's genetic merit for growth to early ages.

400 Day Weight EBV (kg) is calculated from the weight of progeny taken between 301 and 500 days of age, adjusted to 400 days and for age of dam. This EBV is the best single estimate of an animal's genetic merit for yearling weight.

600 Day Weight EBV (kg) is calculated from the weight of progeny taken between 501 and 900 days of age, adjusted to 600 days and for age of dam. This EBV is the best single estimate of an animal's genetic merit for growth beyond yearling age.

Mature Cow Weight EBV (kg) is based on the cow weight when the calf is weighed for weaning, adjusted to 5 years of age. This EBV is an estimate of the genetic difference in cow weight at 5 years of age and is an indicator of growth at later ages and potential feed maintenance requirements of the females in the breeding herd. Steer breeders wishing to grow animals out to a larger weight may also use the mature Cow Weight EBV.

Milk EBV gives an estimation of the animal's milking ability. For sires, this EBV indicates the effect of their daughter's milking ability, inherited from the sire, on the 200 day weight of her calves. For dams, it indicates her milking ability.

Scrotal Size EBV (cm) is calculated from the circumference of the scrotum taken between 300 and 700 days of age and adjusted to 400 days of age. This EBV is an estimate of an animal's genetic merit for scrotal size. There is also a small negative correlation with age of puberty in female progeny and therefore selection for increased scrotal size will result in reduced age at calving of female progeny.

Days to Calving EBV (days) indicates the fertility of the daughters of the sire. It is the time interval between the day when the female is first exposed to a bull in a paddock mating to the day when she subsequently calves. A negative EBV for days to calving indicates a shorter interval from bull-in date to calving and therefore higher fertility.

Carcase Weight EBV (kg) is based on abattoir carcass records and is an indicator of the genetic differences in carcass weight at the standard age of 650 days.

Eye Muscle Area EBV (sq cm) is calculated from measurements from live animal ultrasound scans and from abattoir carcass data, adjusted to a standard 300kg carcass. This EBV estimates genetic differences in eye muscle area at the 12/13th rib site of a 300kg dressed carcass. More positive EBVs indicate better muscling on animals. Sires with relatively higher EMA EBVs are expected to produce better-muscled and higher-percentage-yielding progeny at the same carcass weight than will sires with lower EMA EBVs.

Rib Fat and Rump Fat EBVs (mm) are calculated from measurements of subcutaneous fat depth at the 12/13th rib site and the P8 rump site (from live animal ultrasound scans and from abattoir carcasses) and are adjusted to a standard 300kg carcass. These EBV's are indicators of the genetic differences in fat distribution on a standard 300kg carcass. Sires with low, or negative, fat EBVs are expected to produce leaner progeny at any particular carcass weight than will sires with higher EBVs.

Retail Beef Yield EBV (%) indicates genetic differences between animals for retail yield percentage in a standard 300kg carcass. Sires with larger EBVs are expected to produce progeny with higher-yielding carcasses.

Intramuscular Fat EBV (%) is an estimate of the genetic difference in the percentage of intramuscular fat at the 12/13th rib site in a 300kg carcass. Depending on market targets, larger (more positive) values are generally more favourable.

Net Feed Intake (Feedlot Finishing) EBV (kg) is an estimate of genetic differences between animals in feed intake at a standard weight and rate of weight gain when animals are in a feedlot finishing phase. NFI-F EBVs as expressed as kilograms (kg) of feed intake per day. Lower, or more negative, NFI-F EBVs are more favourable. For example, a bull with an NFI-F EBV of -0.6 kg/day would be expected to produce progeny that eat less feed per day than the progeny from a bull that has an NFI-F EBV of +0.8 kg/day (when the progeny are of similar weight, are growing at a similar rate, and are in a feedlot finishing phase).

HEREFORD Group Breedplan - Average EBVs for 2020-born calves.

| GL | Bwt | 200 | 400 | 600 | Milk | SS | Cwt | EMA | Rib | Rump | RBY | IMF | SSR | NSR | SBM | NBT |
|------|------|-----|-----|-----|------|------|-----|------|------|------|------|------|--------|--------|--------|-------|
| -0.7 | +4.0 | +33 | +55 | +78 | +17 | +2.1 | +51 | +3.8 | +0.8 | +1.0 | +0.8 | +0.6 | +\$133 | +\$120 | +\$135 | +\$99 |

Hereford Pedigree Abbreviations:

In accordance with Herefords Australia regulations, the following abbreviations appear in the pedigree of animals denoting their horn status.

| | | |
|------|---|--|
| (H) | = | Horned |
| (H#) | = | is a horned animal either containing Polled genetics OR missing a percentage of it's four-generation-horned pedigree |
| (P) | = | Polled |
| (PP) | = | Homozygous Polled |
| (S) | = | Scurred (Note: The scurred gene is independent to the polled gene. It gives no indication of the level of horned or polled progeny that will result from this sire.) |

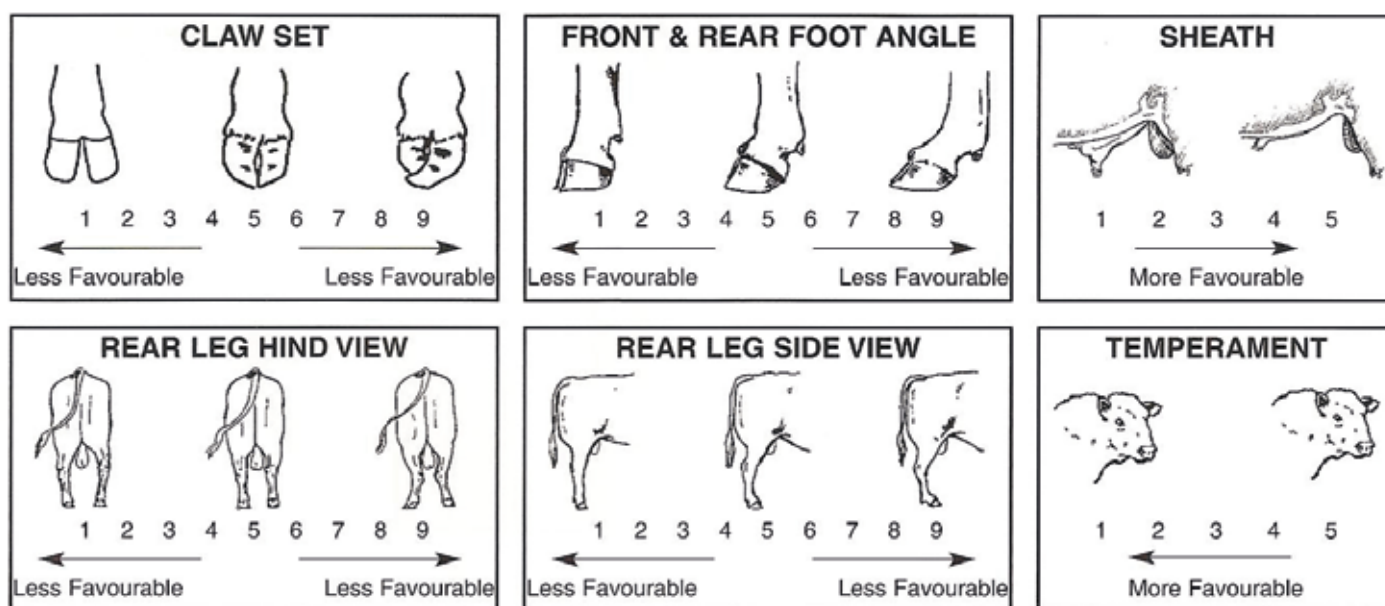

DISCLAIMER NOTICE

People entering upon this property for any purpose whatsoever, including attendance of cattle auctions, do so at their own risk. We are not liable to you for personal injury or death suffered by you and/or for the theft, loss of or damage to any personal property caused or contributed to by us or by any other person whether caused or contributed to by our or their negligence, deliberate act or unlawful conduct. "We", "Us" or "Our" refer to the owners, their employees, contractors and agents and each of them. Every care has been taken in compiling this catalogue to ensure accuracy of information supplied, but no responsibility is accepted for any errors which may have occurred.

An explanation of the Beef Class Structural Assessment System

The Beef Class Structural Assessment System uses a 1-9 scoring system for feet and leg structure:

- A score of **5** is ideal.
- A score of **4 or 6** shows slight variation from ideal, but this includes most sound animals. An animal scoring 4 or 6 would be acceptable in any breeding program.
- A score of **3 or 7** shows greater variation but would be acceptable in most commercial programs. However, seedstock producers should be vigilant and understand that this score indicates greater variation from the ideal.
- A score of **2 or 8** are low-scoring animals and should be looked at cautiously and inspected very closely before purchasing.
- A score of **1 or 9** should not be catalogued and are considered culls.

Eye Setting

5 is very well-hooded eyes set back in head - perfect eye set.

1 is very open eyed - undesirable.

Temperament/Docility

1 is ideal (docile).

3 is less ideal (restless).

5 is aggressive.

Scores of **1** and **2** are preferred.

Scanning: All sale bulls were scanned by **Liam Cardile, Beef Xcel, 14/12/2021.**

Pigment: Each animal is assessed by a Mawarra team member for left/right eye pigment and this is stated in the catalogue.

Scrotal: Scrotal circumferences of all bulls were measured by **Liam Cardile, Beef Xcel, 14/12/2021.**

Soundness: All bulls were assessed for structural soundness by **Liam Cardile, Beef Xcel, 14/12/2021,** prior to selection for sale.

Traralgon Veterinary Centre inspected the bulls on **14/02/2022** for structural and breeding soundness.

Certificates will be available from the office on Sale Day.

Begin with the basics, build a strong foundation.

Structural Assessment Scores

The Mawarra herd has always been subject to our own strict evaluation program to assess structural soundness. In line with our objective to record and report on all traits relative to selection, we include for your information an independant structural evaluation. Liam Cardile, BeefF Xcel, completed the structural assessment on the 14th December, 2021.

 MAWARRA MINERVA 554 ET1 (AI) (ET) (H)

Emperor L336 sired Australia's 2020 \$100,000 top-selling Hereford bull (Talbalba Emperor P043), and the \$103,000 top-selling bull (Mawarra If Only Q264) at the 2021 Herefords Australia National (Wodonga). Emperor L336 was accepted into the Herefords Australia Young Sire Program, the BIN Progeny Test - 7th Cohort, and the DPI Southern Multi-breed Project. He is a trait leader for IMF and one of the leading sires in the breed for Net Feed Intake (Top 1% EBV / Ranked No.5 in the breed). His dam, Minerva 816, is an outstanding female. She is a full sister to international sire, Vice Admiral, and has ten daughters currently retained in herd. Her sons sold to date include 2018 Mawarra equal sale top-seller, Mawarra Five Star (\$20,000), and Mawarra Empire (\$15,000 - 2017 Herefords Australia National [Wodonga]). She also has two sons cataloged in this Sale.

**\$103,000 Mawarra If Only Q264****\$100,000 Talbalba Emperor P043****Mawarra Hugo (H)**

Born: 16/09/2015

MAWARRA MINERVA 1009 (AI) (ET) (H)
 MAWARRA MINERVA 816 (AI) (ET) (H)

Reference sire: Hugo semen has been sold domestically and also exported to the UK and numerous EU countries. His EBVs rank in the top 1% for Rump, IMF & NFI, 5% EMA, Rib, 10% NSR, 15% Milk, SSR, SBM & NBT. Hugo's first sons will feature at our 2023 Sale. He is represented in this catalogue by four daughters, see Lots 168, 170, 173 and 178. His dam, Minerva 1009, is a full sister to Mawarra Emperor L336, featured above.

Mawarra Platinum M401 (AI) (ET) (H) Born: 11/09/2016

MAWARRA MISS TITANIA 414 (AI) (ET) (H)
 MAWARRA MISS TITANIA 140 (AI) (H)

Future sire: Platinum's EBVs rank in the top 5% EMA, Rib, Rump, IMF, 10% Milk. Alan Mitchell, Wonthaggi, purchased Platinum for \$12,000 at our 2018 on-property Sale and kindly allowed us to use him for a season. Miss Titania 414 is the dam of retained sire, Blizzard. Another four sons have sold to \$14,000 (twice) and we have seven daughters in herd.

Sugarloaf Nowra N124 (AI) (H) Born: 21/07/2017

 SUGARLOAF JEWEL Z148 (H)

We purchased Nowra for \$18,000 at Sugarloaf's 2019 Sale. He is always standing up - ready for a picture ... a sign of his great structure and presence. A big, powerful sire; his B-butt shape, beautiful Hereford cosmetics and dark, soft coat is perfectly suited to the commercial marketplace. We have been impressed with the consistency of his progeny, evident in his first draft of sons; Lots 3, 4, 6, 7, 8, 11, 12, 14, 15, 18, 41, 46, 47, 48, 63, and his daughters; Lots 152, 153, 169, 172 and 174.

Top 1% RBY, 5% Cwt, EMA, 10% 200, 600, 15% Mwt.

GH ADAMS TWISTER 416T (IMP CAN) (H)
MAWARRA MINERVA 921 (AI) (H)
 MAWARRA MINERVA 807 (AI) (H)

Flying Start's sire, Diamentina, has bred with impressive consistency for Alan Mitchell, Wonthaggi, and, as a result, we retained his son, Flying Start. A heifer's first calf, Flying Start scanned the largest raw EMA of his drop. Trait leader for 200, 400 & 600 while ranking in the top 1% for EMA & RBY, 5% Mwt & Cwt, his growth and carcass attributes are all traits required to increase the profitability of a beef-producing enterprise. To date, his eight sons have sold to \$12,500 and three daughters to \$9,000. We have thirty-one daughters retained in herd, four of which will be offered in this catalogue as Lots 143, 148, 160 and 161. We also encourage your inspection of his eight sons, see Lots 9, 13, 21, 22, 53, 60, 67, and 68.

POURAKINO DOWNS JASPER (IMP NZL) (H)
GLACIER CYNTHIA 420 (H)
 GLACIER CYNTHIA 362 (H)

We purchased Gift with Brent and Anna Fisher, Pute Herefords, New Zealand. We really loved Gift's strong top, carcass attributes and capacity. Pute used a son in their last joining season ... a young bull they regard as one of the better Hereford bulls they've offered. They have daughters milking well and admire the great temperament, softness and markings of the Gift progeny. We would agree that our Gift daughters show great promise. We encourage your inspection of his Mawarra sons catalogued as Lots 44, 54, 65, 74 & 77. He will be represented by another son in our team for the 2022 Herefords Australia National (Wodonga).

YARRAM FLOSSIE A096 (AI) (H)
 YARRAM FLOSSIE R065 (AI) (H)

This sire line is one we know well, and trust to continue breeding commercially-elite cattle that fit the demands of modern industry. The necessary traits to achieve this are highlighted by F181's excellent EBVs and (\$)Indexes. He is a trait leader for EMA, RBY & IMF, indicative to recording the highest scan data for EMA in his drop at Yarram Park. He ranks top 1% of the breed for NFI (3rd highest bull), 10% NBT, 15% Milk, Cwt, Rump, SSR, NSR, SBM & 20% CEDtrs. Used extensively across Australia, and also internationally, we were delighted to have him reside at Mawarra. We retained his son, Hugo, and his semen has been exported to New Zealand, the UK and numerous EU countries. F181's eighteen Mawarra sons have sold to \$27,000 (two at the Herefords Australia National [Wodonga]), to record an impressive average of \$14,270. Currently, we have forty-six Unique F181 daughters retained in herd. F181 will be represented by a son in our team for the 2022 Herefords Australia National (Wodonga) and another twelve in this catalogue (see Lots 1, 10, 13, 16, 17, 42, 49, 50, 56, 57, 66, 70, 73 and 76).

 DEVON COURT LIONESS A207 (H)
 YALLAROO TITAN X20 (H)
MAWARRA DOREEN 300 (H)
 MAWARRA DOREEN 162 (H)

Evolution was purchased for \$32,000 at the 2017 Herefords Australia National (Wodonga). His top-selling Mawarra son, \$42,000 Mawarra Influential Q162 (sold at the 2021 Herefords Australia National [Wodonga]), was purchased in partnership by Haven Herefords and Pulham Herefords (both from the United Kingdom), and Graham Genetics. Evolution's seven Mawarra sons have recorded an average of \$14,000. We currently have eleven daughters retained in herd. Evolution is a trait leader for 400, 600 & SS, 1% Cwt, 5% Mwt, RBY, 10% 200, 15% IMF, SSR, 20% NSR. Doreen 300's other sons include \$18,000 Black Heart (2014 Herefords Australia National [Wodonga] - Talbalba and WRL Herefords). The Evolution sire line is consistently breeding industry-relevant cattle and, along with Evolution, we are also using Influential Q162 in our breeding program. Evolution will be represented by seven sons at our 2022 Sale, and by another two in our team for the 2022 Herefords Australia National (Wodonga). See Lots 2, 19, 20, 40, 62, 75 and 91 in this catalogue.

Pute Nascar N13 (IMP NZL) (H)

Born: 22/08/2017

KIWI YARDSTICK Y47 (H)
GAY OLYMPUS 1180088 (H)
 GAY AMETHYST 050139 (H)
 GLACIER JOHN 372 (H)
PUTE ROSA H105 (H)
 PUTE ROSA F 1220 (H)

Brent & Anna Fisher, Pute Herefords, New Zealand offered the following comments, "We kept Nascar as a herd sire because we thought so highly of his sire, Olympus. He was an exceptional bull that had the Hereford qualities that we strive for. Nascar was his best son, displaying those same qualities on a more moderate frame, and with a better shape. Nascar is a sound bull with a great sire's head and has that lovely softness and easy do-ability that we have found so prevalent in the Olympus daughters. His first set of sons will be on offer in our sale this year. His second drop of calves are outstanding. They are so consistent in their type. Showing the natural thickness, constitution, strength of bone and softness we look for when breeding Herefords." Nascar's first Mawarra sons will be offered in 2023. We encourage your inspection of his first Mawarra daughters offered as Lots 179 and 180 in this catalogue. Top 5% EMA, 10% Rump, 15% Rib, 20% DC & IMF.

KAIRURU ABERDEEN 03 0047 (IMP NZL) (P)
MAUNGAHINA PRINCESS 100035 (P)
 MAUNGAHINA PRINCESS 71 V44 (P)

Always on the lookout for outcross genetics to introduce to our program, we have been impressed with the performance of Storm 140077 from the renowned Maungahina stud in New Zealand. The McKenzie family rate Storm very highly; "... he [Storm] has everything we strive for in a Hereford bull." His sons at Maungahina have topped two sales at \$40,000 and \$28,000. We offered Storm's first seven Australian sons in 2021. They sold to \$28,000 (Mawarra Twister Q228, purchased by Tenaru and Keneval Poll Herefords at the Herefords Australia National [Wodonga]), and recorded an average of \$11,285. We have fourteen daughters retained in herd, one of which is offered to you as Lot 144. We welcome your inspection of his ten sons catalogued in this sale; see Lots 23, 24, 25, 28, 32, 34, 85, 86, 93, 94, and 95.

NJW Endure 173D has proven himself one of the most influential sires in the Poll Hereford breed of recent time. A sire who promises eye appeal, powerful performance and breed-leading EBV's. Endure's progeny have sold around the globe and include \$100,000 sale toppers, high sires averages, stud and commercial success. Endure is a trait leader for 200, 400, 600, Milk, EMA & IMF. He ranks in the top 1% for all \$Indexes, 5% Cwt, Rib, 10% RBV, 15% SS, 20% CEDtrs, DC & Rump. His first seven Mawarra sons sold to \$53,000 (Mawarra Terminator Q274 purchased by Oak Downs & Morganvale Poll Herefords, with the New Zealand semen rights being secured by Stoneburn Poll Herefords, at the 2021 Herefords Australia National [Wodonga]) to record an impressive average of \$16,715. We sold a young Endure daughter for \$6,000 to Robrick Lodge in 2020. Another fourteen are currently retained in herd. We are pleased to be offering two sons in this catalogue as Lots 26 & 81. Another three will be offered in our team for the 2022 Herefords Australia National (Wodonga).

ALLENDAL DAWN B22 (AI) (ET) (P)

BOWEN VINCENT V1 (S)
DEBARRY TABITHA Y177 (P)
DEBARRY TABITHA T81 (P)

The breeding prowess of both Anzac E114 and DB Tabitha Y177 is well documented. These two elite Poll Herefords have combined pedigree, phenotype and performance resulting in this 'Outstanding' sire. He was in the Herefords Australia Young Sire Program and his semen has been exported to New Zealand, the United Kingdom, and Finland. His progeny scan consistently well, he is a trait leader for SS and ranks in the top 5% IMF, 20% 200, 400 & Rump. Outstanding's twelve sons have sold to \$13,000 and his daughters have sold to \$9,000. We have twenty-nine daughters currently retained in herd. Outstanding is represented in this catalogue by a son, Lot 36, and five daughters (see Lots 158, 159, 163, 175 and 176).

CLOVERLEE HUNTER (P)
MAWARRA MISS TITANIA 054 (AI) (ET) (P)
MAWARRA MISS TITANIA 023 (AI) (P)

Showtime commands your attention. A complete sire; his phenotype and EBVs combine in a formidable package. His semen has been exported to New Zealand, the UK and numerous EU countries. Showtime's maternal brothers include retained sire Private Eye M013, \$53,000 Terminator (Oak Downs & Morganvale Poll Herefords), and \$40,000 Rhinestone (Yarram Park Herefords). Their four maternal sisters are all retained. We have eighteen young Showtime daughters in herd, two of which will be offered as Lots 166 and 167 in this catalogue. His first sons will feature in our 2023 Sale.

EBVs rank in the top 1% EMA (he is the No.1 2018 born Hereford bull for EMA), RBV, 5% Milk, Cwt, Rump, 10% Rib, 15% NSR, SBM, NBT & 20% SSR.

Judge is an 'exceptional' example of this sire line. Exceptional L095 was purchased for \$29,000 by Karoonda Herefords. To date, his ten Mawarra sons have sold to \$20,000. We have retained all of his ten young daughters in herd. Minerva 1064 is one of four full sisters we have in herd, and their full brother sold for \$10,000. Their maternal brother, I Spy, is a joining sire in this catalogue and another five brothers have sold to \$17,000. EBV rankings: Top 5% EMA, 10% IMF.

Genetic Conditions Code

For each genetic condition, the first two letters of the code indicate the genetic condition, with the status of the animal displayed as follows;

- __ F Free** Indicates that the sample submitted for the animal has been tested and found to be free of the causative mutation responsible for the condition. This animal is homozygous free.
- __ C Carrier** Indicates that the sample submitted for the animal has been tested and found to be a carrier of the causative mutation responsible for the condition. This animal is heterozygous for the mutation, meaning that it has one mutant allele and one normal allele. This animal could pass the mutation to approximately half of its progeny.
- __ FU Free Untested** Indicates that, based on the pedigree information supplied by the breeder of the animal, the animal is expected to be free of the mutation responsible for the condition but has not been tested. However, this animal has not been tested for the causative mutation and Angus Australia gives no guarantee as to the animal's free status.
- ___ % Carrier** Indicates that, based on the pedigree information supplied by the breeder of the animal, the animal has a chance of being a carrier of the mutation responsible for the condition but has not been tested. The higher the indicated percentage, the larger the chance the animal may be a carrier. To verify the status of this animal, Angus Australia recommends a test be undertaken prior to using this animal for breeding purposes.
- __ A Affected** Indicates that the sample submitted for this animal has been tested and the animal found to be homozygous for the mutation responsible for the genetic condition and has two copies of the mutant variant of the gene. Note, for some recessive conditions such as DD, not all homozygous animals may appear to display phenotypic expression of the condition.

Disclaimer and Privacy Information

Attention Buyer

Animal details included in this catalogue, including but not limited to pedigree, DNA information, Estimated Breeding Values (EBVs) and Index values, are based on information provided by the breeder or owner of the animal. Whilst all reasonable care has been taken to ensure that the information provided in this catalogue was correct at the time of publication, Angus Australia will assume no responsibility for the accuracy or completeness of the information, nor for the outcome (including consequential loss) of any action taken based on this information.

Parent Verification Suffixes

The animals listed within this catalogue, including its pedigree, are displaying a Parent Verification Suffix which indicates the DNA parent verification status that has been conducted on the animal. The Parent Verification Suffixes will appear at the end of each animal's name.

The suffix displayed at the end of each animal's name indicates the DNA parentage verification that has been conducted by Angus Australia.

PV : both parents have been verified by DNA.

SV : the sire has been verified by DNA.

DV : the dam has been verified by DNA.

: DNA verification has not been conducted.

E : DNA verification has identified that the sire and/or dam may possibly be incorrect, but this cannot be confirmed conclusively.

Structural Assessment Scores

The Mawarra herd has always been subject to our own strict evaluation program to assess structural soundness. In line with our objective to record and report on all traits relative to selection, we include for your information an independent structural evaluation. Liam Cardile, Beef Xcel, completed the structural assessment on the 14th December, 2021. For full explanation of structural table, and estimated breeding values, refer page 6.

Beast Mode B074 is a breed-leading sire. Highly sought after around the globe, his sons are consistently recorded as sale toppers. His dam is renowned as one of the best cows in the breed and we were keen to use a son to bring this maternal line into our foundation herd. The consistency of his progeny, combined with his performance, made him an easy choice to include in our AI battery.

Nardoo N155 topped the 2019 Milwillah Sale at \$62,500. His first sons sold at Milwillah last year for an incredible average of \$47,000. He is an outstanding sire; strong head, beautiful soft skin, near-perfect structure. This pedigree is a blend of two of the most renowned Angus maternal families, Dream and Lowan. We were keen to include him in our AI program and encourage your inspection of his first Mawarra sons, catalogued as Lots 112, 113, 122 and 127.

Landmark is definitely a front-paddock sire. We were thrilled to have him in ours after purchasing him from Adamaleuca. He is the type of Angus sire we are aiming to breed; impressive on the eye, with tremendous length, volume, muscle pattern and feet. He is breeding to type and we are looking forward to offering his first Mawarra calves to you in 2023.

KENNY'S CREEK PATRIOT J318 NDIJ318^{SV}
 KENNY'S CREEK CROSS F302 NDIF302[#]

Robin Hood is a deep, soft, eye-catching young sire. His dam, Patriot J318 (see photo page 49), is an exceptional cow. Nardoo N155's first Mawarra sons are offered to you in this catalogue. His sons, sold at Milwillah's 2021 Sale, averaged in excess of \$47,000. Robin Hood is one of our favourites.

Any pedigree boasting our outstanding matron, Minerva 554, is well worth consideration. Dam of Vice Admiral, two Herefords Australia National (Wodonga) Champions, her ten sons averaged in excess of \$17,000. Her daughters have made an invaluable contribution to both our horn and poll breeding programs. This heifer has all the makings of an outstanding breeding female. EBV rankings: Top 1% 600, Mwt, 5% 200, 400, Cwt, 10% RBY, 20% EMA.
