# 51<sup>st</sup> ANNUAL SALE

MONDAY, 18<sup>th</sup> MARCH, 2024 AT 1 P.M.  
84 WHITEFACE BULLS & 45 ANGUS BULLS  
22 WHITEFACE HEIFERS

BJS Livestock video sale will be interfaced with AuctionsPlus

## DIRECTIONS

Mawarra is approximately 12 minutes drive from Sale. Travelling from Bairnsdale, take the South Gippsland Hwy to Yarram, at Sale, & turn right at Longford towards Rosedale. Kellys Rd is approximately 8kms on the right.

Travelling from Melbourne, via Princes Hwy, turn right at the roundabout in Rosedale & take the first left towards Longford. Kellys Road is approximately 19kms on the left.

## AIRSTRIP

Available at Sale airport. Planes will be met on request by agents or vendors.

## REFRESHMENTS

Light lunch, morning and afternoon tea will be available from 9:30 a.m. on Sale Day thanks to the Longford Primary School Parents' Club.

## INSPECTION

All cattle can be inspected, by appointment, prior to the sale. Gates will be open from 8 a.m. on Sale Day.

## HERD HEALTH

All bulls have been treated with Cydectin, Multimin & Ultravac 7in1. Pestiguard has been administered according to Zeotis guidelines. J-BAS score 6.

## NO VERBAL INSTRUCTIONS

Please fill out the Buyers Instruction Form available on our website prior to the sale, or from the office on Sale Day. Only agents introducing 24 hours prior to the sale or attending on the day will receive a rebate.

## AGENTS REBATE

3% payable ONLY to those agents who accompany their clients on Sale Day and co-sign the Buyers Instruction Form. 1% rebate is available to those agents who introduce their clients in writing, by fax or email, at least 24 hours prior to the sale.

## DELIVERY

Staff from Joe Wilton Transport will be in attendance to co-ordinate deliveries. Stock awaiting delivery will be held free of charge for a period not exceeding one week or, in the case of interstate destinations, until regulation tests have been completed. Every care will be taken, but no responsibility accepted. Sale will be cancelled on any animal failing health tests.

## ACCOMMODATION

Accommodation and transport can be arranged by contacting selling agents or vendors. We recommend the following motels:

## CONDITIONS OF SALE

- 1 The highest bidder shall be the purchaser and, in the event of any dispute arising, it shall be settled by the Auctioneer unless one of the claimants will advance, in which case the lots shall be put up again.
- 2 The purchaser shall deposit 25% or the whole of the amount of the purchase money (if required) at any time during the sale.
- 3 All stock shall be paid in cash immediately on conclusion of the sale, and prior to delivery, but, unless other arrangements are specifically agreed in the event of delivery being made or possession obtained by the purchaser or his representative prior to payment of the purchase money, then until payment in full of the purchase money, or any cheques given on account of same of the purchaser to hold the stock as trustee only for the vendor.
- 4 Each lot shall be at the risk and expense of the purchaser immediately upon the fall of the hammer.
- 5 Lots will not necessarily be offered in numerical order.
- 6 All conditions and warranties which might but for this clause be implied by law are expressly negated and excluded. Lots are sold with all faults (if any) and no fault, error, omission, or misdescription in such particulars or pedigrees shall invalidate the sale or be made the subject of any claim for compensation.
- 7 The auctioneers or vendors shall not be responsible for any errors or omissions in any particulars appearing in the description of pedigree of any lot offered for sale, and no error, omission or misdescription in such particulars or pedigrees shall invalidate the sale or be made the subject of any claim for compensation.
- 8 The purchaser authorises the auctioneer and/or the auctioneer's clerk to sign on his or her behalf the contract of sale.
- 9 Any statement in the catalogue in relation to a particular cow that has been pregnancy tested as being in calf or to the like effect shall not imply any warranty by the vendor that the cow is in fact pregnant and the purchaser is required to take the risk of the pregnancy or tests being wrong.
- 10 If the purchaser shall neglect or fail to comply with any of the above conditions, any stock purchased by him may be immediately resold by public auction or private contract, with or without notice, at the risk of the former purchaser, who will be held responsible for all loss and expenses arising out of such re-sale, and shall not participate in any profit accruing therefrom.
- 11 GST: All payments to be made under this agreement are exclusive of GST as that term is used and defined in A New Tax System (Good and Services Tax) Act 1999 (as amended). The purchaser acknowledges that, in addition to all payments payable by the purchaser for all supplies made under this agreement, the purchaser must pay all applicable GST on supplies made.

## Description of Estimated Breeding Values (EBV)

**Calving Ease EBV** (%) are based on calving difficulty scores, birth weights and gestation length information. More positive EBV's are more favourable and indicate easier calving.

**Gestation Length EBV** (days) is an estimate of the time from conception to the birth of the calf and is based on AI and hand-mating records. Lower (negative) GL EBVs indicate shorter gestation length and therefore easier calving and increased growth after birth.

**Birth Weight EBV** (kg) is based on the measured birth weight of progeny, adjusted for dam age. The lower the value the lighter the calf at birth and the lower the likelihood of a difficult birth. This is particularly important when selecting sires for use over heifers.

**200 Day Growth EBV** (kg) is calculated from the weight of progeny taken between 80 and 300 days of age. Values are adjusted to 200 days and for age of dam. This EBV is the best single estimate of an animal's genetic merit for growth to early ages.

**400 Day Weight EBV** (kg) is calculated from the weight of progeny taken between 301 and 500 days of age, adjusted to 400 days and for age of dam. This EBV is the best single estimate of an animal's genetic merit for yearling weight.

**600 Day Weight EBV** (kg) is calculated from the weight of progeny taken between 501 and 900 days of age, adjusted to 600 days and for age of dam. This EBV is the best single estimate of an animal's genetic merit for growth beyond yearling age.

**Mature Cow Weight EBV** (kg) is based on the cow weight when the calf is weighed for weaning, adjusted to 5 years of age. This EBV is an estimate of the genetic difference in cow weight at 5 years of age and is an indicator of growth at later ages and potential feed maintenance requirements of the females in the breeding herd. Steer breeders wishing to grow animals out to a larger weight may also use the mature Cow Weight EBV.

**Milk EBV** gives an estimation of the animal's milking ability. For sires, this EBV indicates the effect of their daughter's milking ability, inherited from the sire, on the 200 day weight of her calves. For dams, it indicates her milking ability.

**Scrotal Size EBV** (cm) is calculated from the circumference of the scrotum taken between 300 and 700 days of age and adjusted to 400 days of age. This EBV is an estimate of an animal's genetic merit for scrotal size. There is also a small negative correlation with age of puberty in female progeny and therefore selection for increased scrotal size will result in reduced age at calving of female progeny.

**Days to Calving EBV** (days) indicates the fertility of the daughters of the sire. It is the time interval between the day when the female is first exposed to a bull in a paddock mating to the day when she subsequently calves. A negative EBV for days to calving indicates a shorter interval from bull-in date to calving and therefore higher fertility.

**Carcase Weight EBV** (kg) is based on abattoir carcase records and is an indicator of the genetic differences in carcase weight at the standard age of 650 days.

**Eye Muscle Area EBV** (sq cm) is calculated from measurements from live animal ultrasound scans and from abattoir carcase data, adjusted to a standard 300kg carcase. This EBV estimates genetic differences in eye muscle area at the 12/13th rib site of a 300kg dressed carcase. More positive EBVs indicate better muscling on animals. Sires with relatively higher EMA EBVs are expected to produce better-muscled and higher-percentage-yielding progeny at the same carcase weight than will sires with lower EMA EBVs.

**Rib Fat and Rump Fat EBVs** (mm) are calculated from measurements of subcutaneous fat depth at the 12/13th rib site and the P8 rump site (from live animal ultrasound scans and from abattoir carcasses) and are adjusted to a standard 300kg carcase. These EBV's are indicators of the genetic differences in fat distribution on a standard 300kg carcase. Sires with low, or negative, fat EBVs are expected to produce leaner progeny at any particular carcase weight than will sires with higher EBVs.

**Retail Beef Yield EBV** (%) indicates genetic differences between animals for retail yield percentage in a standard 300kg carcase. Sires with larger EBVs are expected to produce progeny with higher-yielding carcasses.

**Intramuscular Fat EBV** (%) is an estimate of the genetic difference in the percentage of intramuscular fat at the 12/13th rib site in a 300kg carcase. Depending on market targets, larger (more positive) values are generally more favourable.

**Net Feed Intake (Feedlot Finishing) EBV** (kg) is an estimate of genetic differences between animals in feed intake at a standard weight and rate of weight gain when animals are in a feedlot finishing phase. NFI-F EBVs as expressed as kilograms (kg) of feed intake per day. Lower, or more negative, NFI-F EBVs are more favourable. For example, a bull with an NFI-F EBV of -0.6 kg/day would be expected to produce progeny that eat less feed per day than the progeny from a bull that has an NFI-F EBV of +0.8 kg/day (when the progeny are of similar weight, are growing at a similar rate, and are in a feedlot finishing phase).

### HEREFORD Group Breedplan - Average EBVs for 2022-born calves.

GL	Bwt	200	400	600	Milk	SS	Cwt	EMA	Rib	Rump	RBV	IMF	SSR	NSR	SBM	NBT
-0.7	+3.9	+34	+57	+80	+18	+2.2	+54	+4.0	+0.9	+1.2	+0.7	+0.7	+143	+129	+147	+108

### Hereford Pedigree Abbreviations:

In accordance with Herefords Australia regulations, the following abbreviations appear in the pedigree of animals denoting their horn status.

- (H)** = Horned
- (H#)** = is a horned animal either containing Polled genetics OR missing a percentage of it's four-generation-horned pedigree
- (P)** = Polled
- (PP)** = Homozygous Polled
- (S)** = Scurred (Note: The scurred gene is independent to the polled gene. It gives no indication of the level of horned or polled progeny that will result from this sire.)

### DISCLAIMER NOTICE

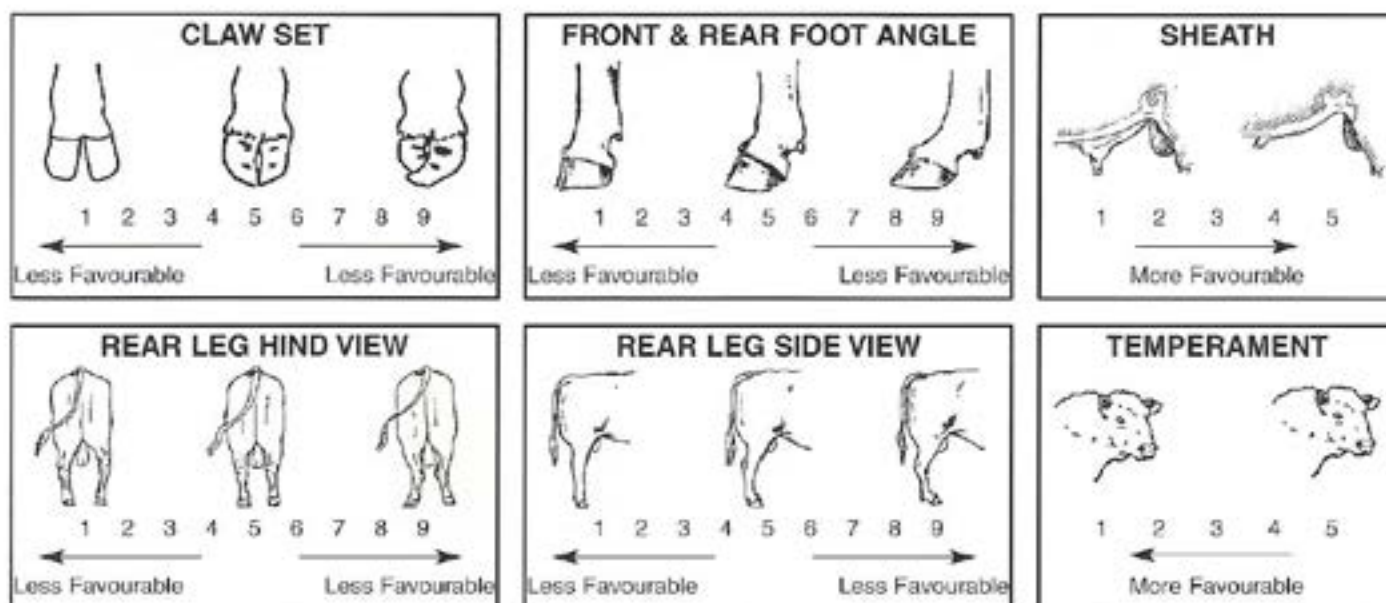

People entering upon this property for any purpose whatsoever, including attendance of cattle auctions, do so at their own risk. We are not liable to you for personal injury or death suffered by you and/or for the theft, loss of or damage to any personal property caused or contributed to by us or by any other person whether caused or contributed to by our or their negligence, deliberate act or unlawful conduct. "We", "Us" or "Our" refer to the owners, their employees, contractors and agents and each of them. Every care has been taken in compiling this catalogue to ensure accuracy of information supplied, but no responsibility is accepted for any errors which may have occurred.

## An explanation of the Beef Class Structural Assessment System

The Beef Class Structural Assessment System uses a 1-9 scoring system for feet and leg structure:

- A score of **5** is ideal.
- A score of **4 or 6** shows slight variation from ideal, but this includes most sound animals. An animal scoring 4 or 6 would be acceptable in any breeding program.
- A score of **3 or 7** shows greater variation but would be acceptable in most commercial programs. However, seedstock producers should be vigilant and understand that this score indicates greater variation from the ideal.
- A score of **2 or 8** are low-scoring animals and should be looked at cautiously and inspected very closely before purchasing.
- A score of **1 or 9** should not be catalogued and are considered culls.

### Eye Setting

**5** is very well-hooded eyes set back in head - perfect eye set.

**1** is very open eyed - undesirable.

### Temperament/Docility

**1** is ideal (docile).

**3** is less ideal (restless).

**5** is aggressive.

Scores of **1** and **2** are preferred.

**Scanning:** All sale bulls were scanned by **Liam Cardile, Beef Xcel, 12/12/2023.**

**Pigment:** Each animal is assessed by a Mawarra team member for left/right eye pigment and this is stated in the catalogue.

**Scrotal:** Scrotal circumferences of all bulls were measured by **Liam Cardile, Beef Xcel, 12/12/2023.**

**Soundness:** All bulls were assessed for structural soundness by **Liam Cardile, Beef Xcel, 12/12/2023,** prior to selection for sale.

**Traralgon Veterinary Centre** inspected the bulls on **01/02/2024** for structural and breeding soundness.

Certificates will be available from the office on Sale Day.

Begin with the basics, build a strong foundation.

## Structural Assessment Scores

The Mawarra herd has always been subject to our own strict evaluation program to assess structural soundness. In line with our objective to record and report on all traits relative to selection, we include for your information an independent structural evaluation. Liam Cardile, Beef Xcel, completed the structural assessment on the 12<sup>th</sup> December, 2023.

\$103,000 If Only was purchased by Melville Park Herefords at the 2021 Herefords Australia National Show & Sale (Wodonga). If Only already has 200 progeny registered across thirteen herds nationwide. If you're looking for stylish, soft, and well-balanced cattle to increase profitability you need look no further. The If Only progeny are low birth and easy calving, followed by rapid growth and carcass development ... traits indicated by his top 1% EBV ranking for NFI (feed efficiency) and top 5% IMF. If Only's sons, offered in this catalogue, are perfectly suited to modern industry; efficiently increasing both weight-for-age and IMF resulting in quicker turnover and higher grading. We are confident they will positively influence the profitability of your herd.

## Mawarra Emperor (AI) (ET) (H)

Born: 16/09/2015

CHURCHILL SENSATION 028X (H)  
**CHURCHILL A1 ET (IMP USA) (H)**  
 CHURCHILL LADY 6109S ET (H)

COOTHARABA MAGNUM (H)  
**MAWARRA MINERVA 816 (AI) (ET) (H)**  
 MAWARRA MINERVA 554 ET1 (AI) (ET) (H)

Emperor L336 is the only Australian Hereford sire to have produced two \$100,000+ sons (\$100,000 Talbalba Emperor P043 [2020], and \$103,000 Mawarra If Only Q264 [2021]). Emperor L336 was accepted into the Herefords Australia Young Sire Program, the BIN Progeny Test - 7th Cohort, and the DPI Southern Multi-breed Project. He is a trait leader for IMF and one of the leading sires in the breed for Net Feed Intake. A full sister to international sire, M. Vice Admiral, his dam was an outstanding female. We have seventeen Minerva 816 daughters currently in herd, and three more have sold to \$10,000. Her seven sons sold to date (three at the Herefords Australia National [Wodonga]) have topped at \$22,000. Emperor has sold four daughters from \$3,000 to \$13,000, and we have another thirty-five retained. At our on-property sales, Emperor sons have sold from \$4,000 - \$22,000. Six Emperor sons, and a daughter, are offered to you in this catalogue. He will also be represented by another son in our 2024 Herefords Australia National Show & Sale (Wodonga) team.

 MAWARRA MINERVA 574 (AI) (ET) (H)

Our top-selling Daybreak son, Hawkeye, was purchased for the top-price of \$22,000 at our 2021 Sale by David Phelan, Phelan Herefords. "Minerva 791, Hawkeye's dam, is a granddaughter of the great Minerva 259, one of the best matrons at Mawarra," David commented. "Hawkeye's steer calves were among the tops at our February Sale." David continues, "His rising two year old heifers have just been joined and will calve at 30 months. Hawkeye has filled out well and is as quiet as a lamb." In keeping with their sires temperament, phenotype, and market suitability, we offer Hawkeye's first three Mawarra sons in this catalogue.

MAWARRA DOREEN 300 (H)

MAWARRA BLIZZARD (AI) (H)

### MAWARRA MINERVA 1034 (H)

MAWARRA MINERVA 892 (AI) (H)

Influential Q162 was purchased for \$42,000 by Graham Genetics and a UK partnership of Haven and Pulham Herefords, England. We are pleased to have secured Influential's return to Mawarra after the 2023 dispersal of Graham Genetics. Influential indeed on the 2023 UK show circuit, Q162's progeny took home all the Junior Championship rosettes at the National Horn Show. A Pulham son, Pulham Admiral, was awarded both the Supreme Champion and 2023 UK Horned Bull of the Year (see page 74). At Mawarra, Influential's sons sold from \$6,000 to \$22,000 at our on-property sale, and another was purchased by Rose Cottage Herefords for \$22,000 at the 2023 Herefords Australia National Show & Sale (Wodonga). We have thirty-two promising young daughters in our herd. We offer five sons in this catalogue, and another three have been included in our team for the 2024 Herefords Australia Show & Sale (Wodonga).

### MAWARRA MISS TITANIA 414 (AI) (ET) (H)

MAWARRA MISS TITANIA 140 (AI) (H)

Alan Mitchell purchased Platinum M401 for \$12,000 at our 2018 Sale. Alan runs a self-replacing breeding herd at Wonthaggi in South Gippsland. Targeting the grass-fed market, Alan grows and fattens steers and heifers between 18 - 30 months. Alan has been impressed with the contribution Platinum has made to his operation which focuses heavily on carcase, fats, and IMF to consistently meet grid requirements and maximise MSA grading results. It was on the back of these results we decided to use Platinum M401 ourselves and provide an opportunity for other producers to utilise this commercially-proven sire. We used Platinum M401 over sale cows offered at our Ladies Day Sale in 2022, and fifteen of his progeny were sold as calves-at-foot. He is represented in this catalogue by two sons, Lots 52 & 60.

## Sugarloaf Nowra N124 (AI) (H)

Born: 21/07/2017

SOUTH BOOROOK BOMBAY (H)

### BATTALION BLACK HAWK K7 (H)

BATTALION CHERRY RIPE 6 (AI) (H)

SUGARLOAF LEGION C059 (AI) (H)

### SUGARLOAF JEWEL G171 (H)

SUGARLOAF JEWEL Z148 (H)

We purchased Nowra for \$18,000 at the 2019 Sugarloaf Sale. He is always standing up - ready for a picture ... a sign of his great structure and presence. A big, powerful sire; his B-butt shape, beautiful Hereford cosmetics and dark, soft coat is perfectly suited to the commercial marketplace. We have been impressed with the consistency of his progeny. Nowra's sons have sold from \$6,000 to \$24,000 (twice) at our on-property sales, with eleven daughters having sold from \$5,000 to \$10,000. At Herefords Australia National Show & Sales, his sons from our stable have sold to \$42,000. We currently have 43 Nowra daughters retained in herd. Nowra ranks in the top 1% of the breed for RBV, 10% EMA, 15% Cwt & 20% 600 & Mwt. Five Nowra sons, and five daughters, are offered to you in this catalogue.

 MAWARRA MISS TITANIA 023 (AI) (P)

Showtime commands your attention. A complete sire; his phenotype and pedigree combine to create a formidable package. His semen has been exported to New Zealand, the United Kingdom, and numerous EU countries. Showtime's EBVs rank in the top 1% EMA, Rib, Rump, 10% Milk, 20% CEDir. Showtime's maternal brothers include retained sire, Private Eye M013, \$53,000 Terminator (Oak Downs & Morganvale Poll Herefords), and \$40,000 Rhinestone (Yarram Park Herefords). They have three maternal sisters retained and a fourth sold for the top price of \$30,000 at our 2022 Ladies Day Sale. The first Showtime son to sell in Australia was exhibited by Mawarra B Herefords at the 2022 Herefords Australia National (Wodonga). This yearling was awarded Junior Champion and went on to sell for \$12,000. Showtime's Mawarra sons have sold from \$6,000 - \$28,000 and his daughters from \$5,000 - \$8,000. We have twenty-four Showtime daughters retained in herd, one of whom we offer in this catalogue. We encourage your inspection of the thirteen Showtime sons included in this Sale.

**MAWARRA MISS TITANIA 054 (AI) (ET) (P)**  
 MAWARRA MISS TITANIA 023 (AI) (P)

\$53,000 Terminator Q274 was purchased by Morganvale & Oak Downs Poll Herefords at the 2021 Herefords Australia National (Wodonga), and the New Zealand rights were purchased by Stoneburn Herefords, Palmerston. Semen has been sold to twenty studs nationwide (more than 350 registered progeny), and the feedback is as impressive, and consistent, as his progeny. His first two sons at our 2023 Sale sold to \$8,000, and another two topped at \$30,000, at the 2023 Herefords Australia National Show & Sale (Wodonga). Miss Titania 054 is one of the most successful cows in the breed. Her sons include retained sire Showtime P277 ... (opposite), and \$40,000 Rhinestone (Yarram Park). Her daughter, Miss Titania 188, topped our 2022 Ladies Day Sale at \$30,000 to Newcomen Herefords. We offer another five Terminator Q274 sons, and two daughters, in this catalogue. Terminator's EBVs rank in the top 5% for EMA, 10% 200, 400, 600, Cwt, 15% CEDtrs, Milk, Rib, SSR, NSR & SBM.

**MAWARRA MINERVA 072 (AI) (P)**  
 MAWARRA MINERVA 020 (P)

This phenotypically-correct sire, the only Sensation son to be offered, is one not to be missed. Sensation's maternal sisters are both donor dams, and their sons have sold to \$30,000. Minerva 072 was sold to Jacandra Herefords. She is a deep, soft, heavy-milking donor dam with a lovely nature. Her Mawarra sons have sold to \$9,000, and we have two daughters retained in herd.

EBV rankings: Top 5% SS, 10% Milk, 20% DC & EMA.

Ticking all the boxes, Vacation is an aesthetically-pleasing front-paddock sire with muscle and thickness sure to be bred into his calves. Miss Titana 414 is a prolific donor dam with seven daughters currently in herd. Her sons have sold to \$14,000 twice, at an average of \$9,700, and also include retained sire, Blizzard. Blizzard was a heavily-muscled sire, much like Vacation. Miss Titania 414 is a maternal sister to the \$30,000 2008 Herefords Aust. National Junior Champion, Terminator B188. EBV rankings: Top 10% RBY, 15% Milk & IMF.

 MAWARRA MINERVA 554 (AI) (ET) (H)

This flush proved incredibly successful ... all the progeny have an enviable phenotype and their pedigree is bursting with performance and promise. Landmark is a flush brother to both Lot 57 and Lonestar T201. We used Lonestar T201 over our heifers and he is a joining sire in this catalogue. Minerva 816 is a full sister to international sire, Vice Admiral D232, and Minerva 817. Landmark's seven maternal brothers, to date, have sold to \$22,000. While three maternal sisters have sold to \$10,000. EBV rankings: Top 5% SS, RBY, 10% 600, Milk, EMA, IMF, 20% Mwt, Cwt.

Allflex Livestock Intelligence

## Tissue Sampling Unit (TSU)

Our Tissue Sampling Units are easy to use, yielding excellent lab results. Collect a clean, uncontaminated sample in seconds with a single squeeze motion.

When paired to a matching NLIS and management tags, we've simplified DNA sampling, creating an absolute sample to animal linkage

## Genetic Conditions Code

For each genetic condition, the first two letters of the code indicate the genetic condition, with the status of the animal displayed as follows:

**\_\_ F Free** Indicates that the sample submitted for the animal has been tested and found to be free of the causative mutation responsible for the condition. This animal is homozygous free.

**\_\_ C Carrier** Indicates that the sample submitted for the animal has been tested and found to be a carrier of the causative mutation responsible for the condition. This animal is heterozygous for the mutation, meaning that it has one mutant allele and one normal allele. This animal could pass the mutation to approximately half of its progeny.

**\_\_ FU Free Untested** Indicates that, based on the pedigree information supplied by the breeder of the animal, the animal is expected to be free of the mutation responsible for the condition but has not been tested. However, this animal has not been tested for the causative mutation and Angus Australia gives no guarantee as to the animal's free status.

**\_\_\_ % Carrier** Indicates that, based on the pedigree information supplied by the breeder of the animal, the animal has a chance of being a carrier of the mutation responsible for the condition but has not been tested. The higher the indicated percentage, the larger the chance the animal may be a carrier. To verify the status of this animal, Angus Australia recommends a test be undertaken prior to using this animal for breeding purposes.

**\_\_ A Affected** Indicates that the sample submitted for this animal has been tested and the animal found to be homozygous for the mutation responsible for the genetic condition and has two copies of the mutant variant of the gene. Note, for some recessive conditions such as DD, not all homozygous animals may appear to display phenotypic expression of the condition.

## Disclaimer and Privacy Information

### Attention Buyer

Animal details included in this catalogue including but not limited to pedigree, DNA information, Estimated Breeding Values (EBVs) and Index values, are based on information provided by the breeder or owner of the animal. Whilst all reasonable care has been taken to ensure that the information provided in this catalogue was correct at the time of publication, Angus Australia will assume no responsibility for the accuracy or completeness of the information, nor for the outcome (including consequential loss) of any action taken based on this information.

### Parent Verification Suffixes

The animals listed within this catalogue, including its pedigree, are displaying a Parent Verification Suffix which indicates the DNA parent verification status that has been conducted on the animal. The Parent Verification Suffixes will appear at the end of each animal's name.

The suffix displayed at the end of each animal's name indicates the DNA parentage verification that has been conducted by Angus Australia.

PV : both parents have been verified by DNA.

SV : the sire has been verified by DNA.

DV : the dam has been verified by DNA.

# : DNA verification has not been conducted.

E : DNA verification has identified that the sire and/or dam may possibly be incorrect, but this cannot be confirmed conclusively.

## Structural Assessment Scores

The Mawarra herd has always been subject to our own strict evaluation program to assess structural soundness. In line with our objective to record and report on all traits relative to selection, we include for your information an independent structural evaluation. Liam Cardile, Beef Xcel, completed the structural assessment on the 12<sup>th</sup> December, 2023.

We are very pleased to have secured the highly-sought-after \$140,000 Dunoon Prime Minister P758 to our AI battery. He displays great hindquarter, depth, and temperament. We are extremely pleased with his progeny. His daughters are lovely young females and we look forward to their contribution to our herd. Our first Prime Minister P758 sons were offered in 2023 and sold from \$6,000 to \$16,000. A true testament to both his breeding consistency and quality, we offer another thirteen impressive sons in this catalogue.

 CSWK304 MURDEDUKE K304<sup>SV</sup>

Quarterback is one of the hottest sires in the breed. His Mawarra progeny have not disappointed and we have ten young daughters in herd. One of our first Quarterback sons, Think Twice T211, has been retained as sire and another, Tabasco T215, resides at Texas Angus. Their two full brothers accompany another five Quarterback sons in this catalogue. We are confident they will satisfy the most discerning of judges and we encourage your inspection.

 BNAE111 TUWHARETOA E111<sup>PV</sup>

Landmark's imposing stature, exceptional length, and well-defined muscling (particularly in his hindquarter) made him a true standout. His progeny have proved equally impressive: twenty-two Mawarra sons have sold from \$6,000 to \$22,000. Jarabee Angus secured his top-selling son - and our Angus sale topper - in 2023. We have retained twenty-nine Landmark daughters in our herd. We are keen to see them continue this lineage in our herd.

 VTMY147 TE MANIA LOWAN V70#

We used Revolution prior to his sale to Gino Dimarco in 2022. Lowan F325 is one of our most successful Angus donor dams. To date, her eleven sons have sold to \$12,000 recording an average of \$9,800. Even at the impressive age of fourteen, her feet and udder are impeccable and she has an exceptional calf-at-foot. Beast Mode has bred to the exacting standard we had hoped for as one of the first sires we included in our AI battery. His sons have been well sought after, ranging in price from \$5,000 - \$15,000 at our sales, and we have ten very promising young daughters in herd.

The Sykes family from Mawarra Genetics and BJS Livestock Photography invite you to join us in supporting Ruby Mae's Wish Day on Monday, March 18th (Mawarra Sale Day). This date holds special significance as it would be Ruby Mae Peake's 6th birthday.

We are deeply saddened by the tragic loss of Ruby to a hereditary disease. In her memory, her parents, the Peake family, have established Ruby Mae's Wish, a charity dedicated to:

- Supporting children's hospitals by providing vital equipment and funding medical research.
- Continuing Ruby's legacy by raising awareness about the challenges faced by families of sick children.

**How you can support Ruby Mae's Wish Day:**

- Purchase a Charity Calendar: On March 18th, we will be selling beautiful calendars (by donation) featuring stunning BJS Livestock Photography images. Donations for these calendars will go directly to Ruby Mae's Wish.
- Enter the raffle: Win a stunning canvas print, featuring a BJS Livestock

Photography image, taken at Mawarra. Raffle proceeds will directly benefit the charity.

Every contribution, big or small, makes a difference. By joining us on March 18th, you can help honour Ruby's memory and empower Ruby Mae's Wish to continue making a positive impact on the lives of children and families facing difficult challenges.

We will be sharing more details about the event on our social media platforms leading up to the date. Please share this information with your family and friends.

Together, let's make Ruby's 6th birthday a day of hope, love, and giving back!

The first Influential calves hit the ground in the UK in Autumn 2022, with these calves dominating the Junior Section of the UK National Hereford Show in August 2023. Influential sired calves, took all the Junior Championship rosettes, as well as winning the Pairs and Group of Three classes. Pulham Admiral went on to be made Supreme Champion of the event, with Pulham Tiara 8th being awarded Reserve Grand Female Champion. Pulham Admiral was the winner of the UK Horned Bull of the Year title in 2023.

“Our Influential calves have been easy calving and have grown on well. We believe our Influential heifers that were born in 2023 are the best and most consistent group we have bred to date and are excited to be putting them to the bull this Spring”.

**Philip & Laura Vincent**  
Pulham Herefords, UK.

welcome  
TO OUR  
family

December was a whirlwind of joy as we welcomed Taylah and Hayden's son, Kayce Robert Frank Brunt, to our family. This little cowboy joined us just in time to celebrate Helen's incredible 90th birthday – what a special way to cap off the year!
